

MILLMA & QAYTU

## WHO **WE ARE**

We support local alpaca farmers and promote natural sustainable dyeing methods.

At Millma, we believe in preserving traditional handcrafts, spinning and knitting.

## **FAIR TRADE** CERTIFIED

We believe that economic sustainability and social empowerment are the keys for community development.

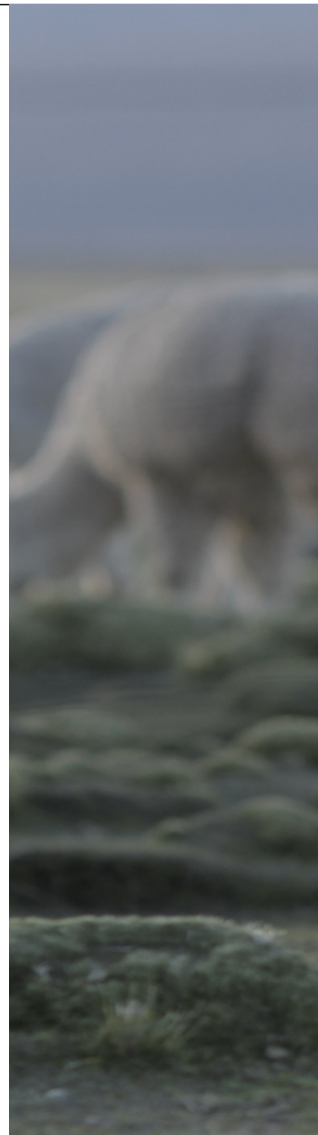

## OUR **ALPACAS**

Alpaca wool is the new luxury fibre sweeping the fashion scene across the world, it is soft, warm, trendy and ecological.

We work with traditional alpaca farmers and herders to ensure the best fibre is selected.

### **Qualities by Microns**

RY - SuperBaby 19-20 mic  
BL - Baby Alpaca 21-22 mic  
FS - Superfine 25-26 mic  
HZ - Huarizo 30-32 mic  
AG - Coarse 33-35 mic  
SU - Suri Alpaca 26-27 mic

## OUR **SPINNERS**

Hand spinning is an artisanal process whereby the raw alpaca fibre is spun using an ancient tool called a PUSHKA.

Women in the highlands of Peru have been using this skill for centuries from generation to generation.

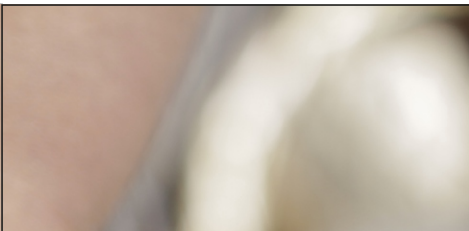

## OUR **HAND DYED** **YARN**

Peru has a rich history of natural dyeing. We promote sustainability and eco dyes which nature offers, such as plants, vegetables, wood, cochineal and minerals.

By using these dyes, we are building a supply chain which does not damage the environment.

## OUR **HAND-KNITTERS**

We have a dedicated team of local handknitters who look carefully after our hand-knit production.

While many companies no longer create hand-knit pieces, we continue to do so because of the technique's versatility.

## KNITTING A DREAM
