

TORIBIO & DONATO

fsh
COLLECTION
SPRING/SUMMER 2020

ABOUT THE BRAND

Toribio&Donato

In 2018, **TORIBIO&DONATO** was born, thanks to the merge of two Costa Rican brands that throughout their career, have shown in their DNA a passion for **sustainable design** and detailed handwork.

Our collections are about a conscious lifestyle shown through hand made garments and accessories made with sustainable and high quality materials.

The creative process of the brand involves an unlimited time devoted to the research and development of materials and sustainable production processes, which ensures consistency with social responsibility and policies; part of the DNA of the brand.

In 2018, both designers launched their first collection of clothing and accessories as **TORIBIO&DONATO: *Bamboo Summer 2018 collection***, always founded on its sustainable premise. In 2019 they presented **52DIEZ**, a contemporary collection made with textiles out of recycled bottles, inspired by the practicality of an urban life.

We felt very motivated and optimistic to present a new concept of sustainability through fashion with this collection; that's why we made an alliance with Arthur Huang from **MINIWIZ**, an architect, with whom we developed all our new textiles.

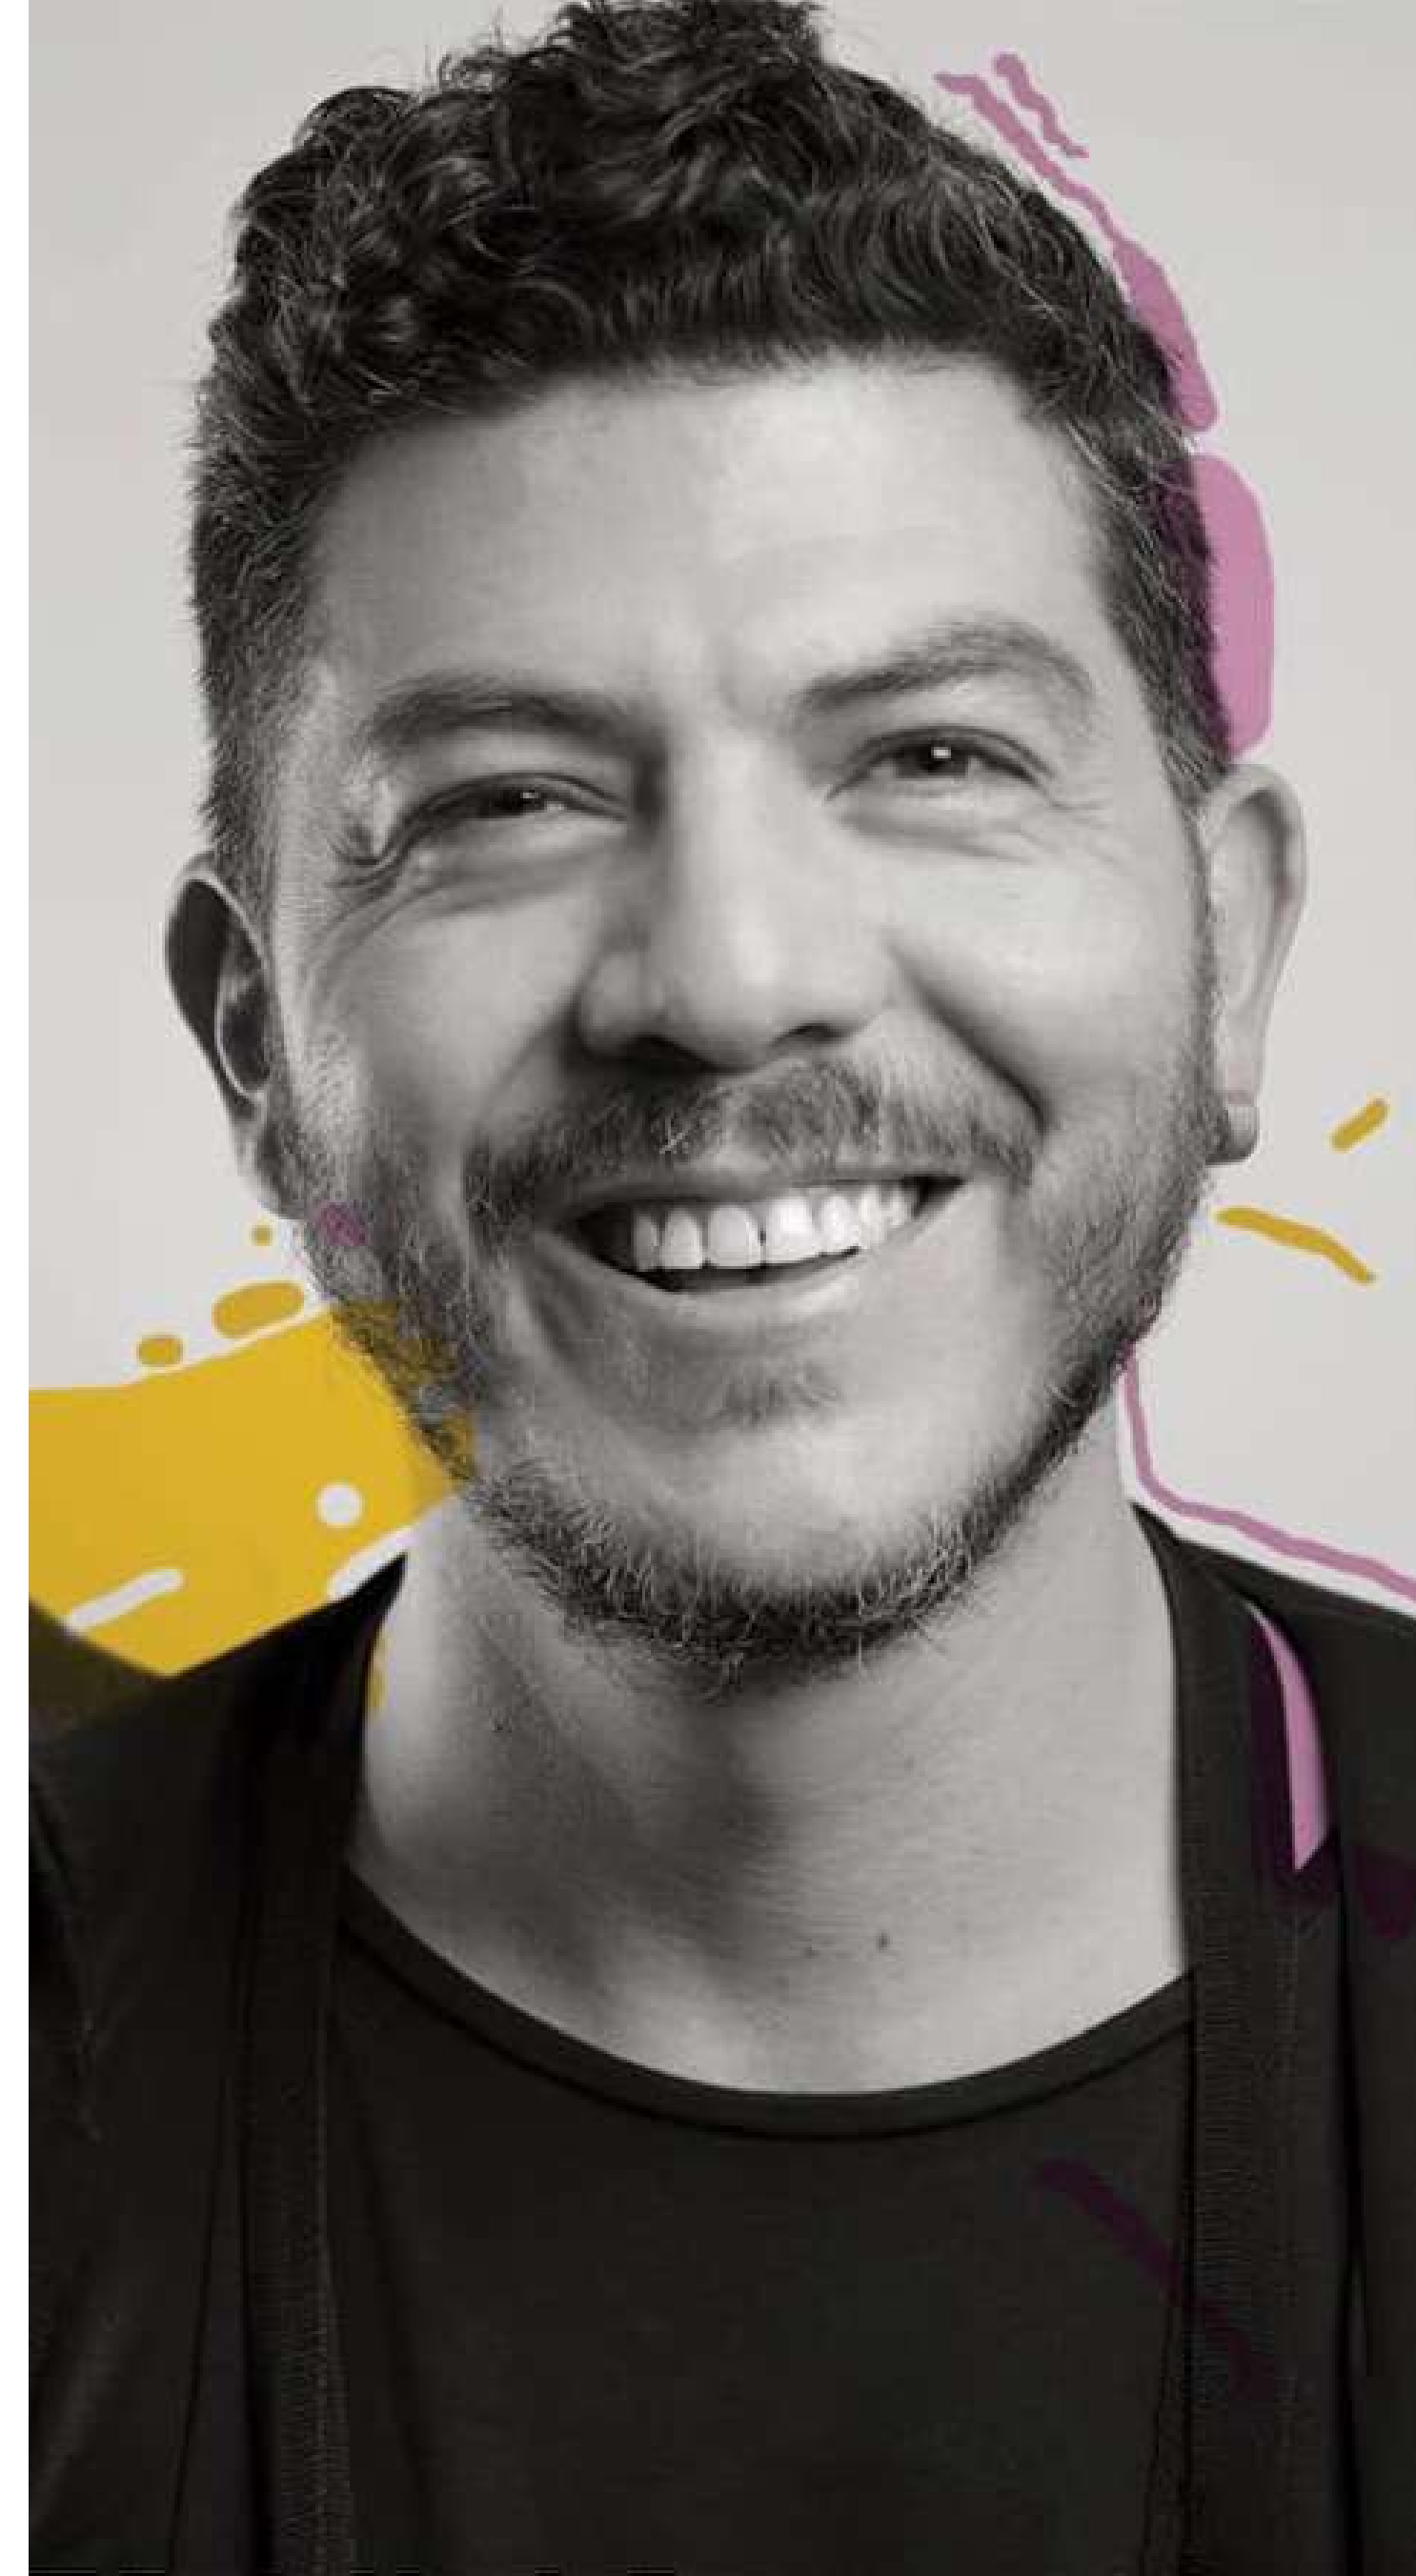

ABOUT THE DESIGNERS

Óscar Hernández

Creative Director of Toribio, graduated as an Agricultural Engineer from EARTHUniversity with an MBA and a Master's Degree in Environmental Management. After working 20 years in the agricultural field and the investigation of clean fuels, he entered the sustainable fashion design industry with the launch of his brand Toribio, over 5 years ago. He studied design at London College of Fashion and through combining knowledge, experience and passion he managed to capture a minimalistic and contemporary design that expresses not only his story but also the mark he wants to share through design.

Donato Morales

Donato's Creative Director has a specialization in the Technical Institute of Fashion Mexico and more than 14 years of experience in the fashion industry. His brand has dedicated itself to work with the latest techniques to reinforce its products, such as the Luneville embroidery technique and ancient French techniques used by big fashion houses like Chanel and Dior applied to the brand's very own bridal and party dresses, allowing the brand to create and reduce the consumption of excess materials, eliminating cuts already applied to each piece; creating uniqueness in every design.

ABOUT FSH

We are happy to launch our **2020 Spring Summer collection**.

This time we took organic fibers to create a luxury interpretation of street wear. We want to go far and we want you to join us.

Street wear can be for everyone.

Gray, pink and green are our colors for this season. Take a look at our statement pieces, the flower dresses and our mono, and create your own version.
