D'Anna Products

Taste and Quality on your table since 2003.

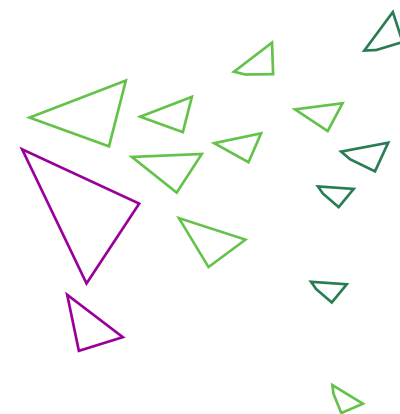

D'ANNA

About Us

The De Pintor Family Works in Marialva since 1964. In 1990, they started the first crops of fine table grapes. Thinking of diversifying, they planted the first Burgundy grapevine to produce grape juice. By the end of 2006, all vines were replaced by rustic grapevines for the production of juices, wines and jams.

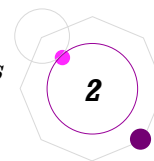

Quality

The D'Anna juices are prepared following a strict quality control, from the vine to the bottling. The product is duly registered at the Brazilian Ministry of Agriculture.

Concerned with the health and wellbeing of our clients, the juice is 100% natural, with no sugar, conservatives or chemical products.

The Product

100% Grape Juice 1.5L

Height: 31 cm
Weight: 2.333 Kg
Bottle: glass

100% Grape Juice 500ml

Height: 20 cm
Weight: 0.816 gr
Bottle: glass

Jams and Jellies 230gr

Height: 8 cm
Weight: 0.436 gr
Bottle: glass

Digital Product

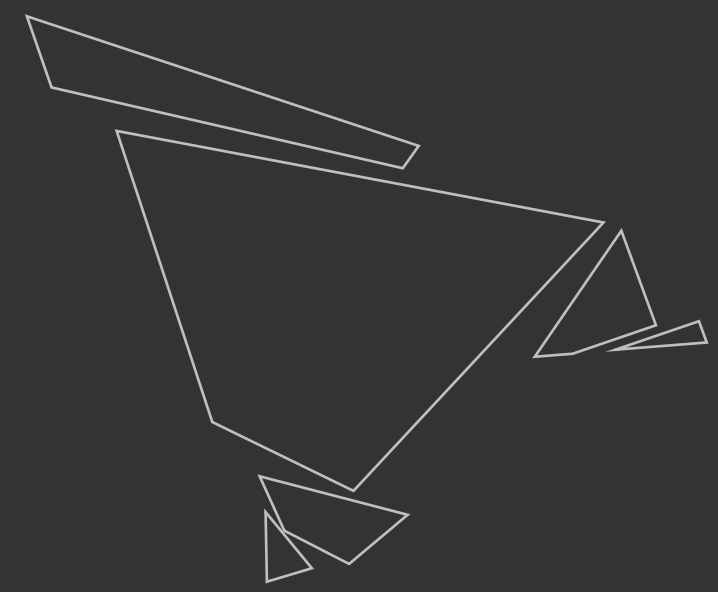

We currently provide two digital access tools:

- Facebook, where we report our routine of Fairs and Exhibitions through the year, allowing clients to know where we will be to contact us.
- Website, where they can find our range of products and may also contact us. They are both linked to each other.

D'Anna Products

Family Agribusiness
