

# SMUFS -BT

## Small device with BIG POSSIBILITIES

SMUFS-BT™ *Secure Mobile Universal Fingerprint Scanner*, the Smallest, Self-powered, IP65 Certified, Standalone Fingerprint scanner, capable of connecting via Bluetooth and USB interfaces.

It turns your peripheral devices into a precise, compact and secure Biometric ID managing system. The device can be extensively used in remote areas, where access to network and internet connectivity is limited. The device is suitable for demanding 1: N identification challenges on the go (OTG). SMUFS-BT can handle tasks from standalone identity to large scale AFIS requirements.

- Banking and Mobile payments
- Insurance and finance
- health Centers and Hospitals
- Paperless ID
- Access Control
- Remote workforce attendance
- Governmental & UN food and benefits
- law enforcement
- Border Control
- Forensics
- Disaster scene management
