Norte. Managua, Nicaragua

COMPANY PROFILE

We are a Recycling company that manages and transforms recyclable waste into quality raw materials, in accordance with the constant demands of its customers in the international market.

Our activity is oriented to the supply of ferrous and non-ferrous waste in several of its classifications, serving essential sectors in the development of several industries in the world, such as foundries in the US, Europe and Asia, which transform our waste into new products .

IMPACTS

Hanter is a company that works under the triple bottom model. We create triple impact: social, economic and environmental. Hanter Metals preserves the environment by properly recycling hazardous and / or metallic materials. Our social and economic impact comes from the direct and indirect creation of decent jobs and other employment opportunities for vulnerable people (20% of young people who have been rescued from the streets work at our plant, our suppliers are 60% mothers single women, people with low levels of education, who through Hanter Metals, have been able to improve their quality of life.). As one of the few legal companies in the industry, Hanter Metals contributes to the reduction of poverty and the economic growth of the country.

INSTALLATION

We have a production plant strategically
located in Managua, in the area of Santa Ana
where the delights of the Volga were 2.5
blocks north. In addition, for the supply of
raw materials, has installed recycling centers
throughout the country.

In our plant we work under the cleanest
production guidelines. We also have all the
environmental authorizations and permits
issued by MARENA (Ministry of Environment),
Department of Environmental Quality of the
Mayor's Office of Managua, MINSA (Ministry of
Health) and our facilities are accredited by
the Ministry of the Interior - Fire Department.

HUMAN RESOURCE

Nuestro personal esta altamente capacitado y
con mucha experiencia para desempeñar la
gestión del reciclaje, por lo cual estamos
seguros de ofrecer calidad y seguridad en
nuestroS productos y servicios.
