YOUR BUSINESS, OUR COMMITMENT

About Us

We believe in improving the quality of life of users, expanding the capacities of our customers.

We are committed to what to do, constantly training ourselves in an open work environment, whose synergy achieves the best results in the creation of innovative products and services.

Our Team

Our software development and support teams contribute enormously to our success by going to great lengths to assist our customers. Our team, with rich experience and wide scope of technologies creates a valuable resource for our customers. Over the years, each member of the team has developed his or her skills and capabilities to efficiently support our clients in various technologies.

Working as a team, **each individual brings a different perspective** for the IT challenges and all of us aim at **providing an optimized solution for our clients.**

Our recruiting process

We provide a service based on the specialization of a demanding and strategic system of search and selection of personnel, with the purpose of satisfying the particular demands of each of the projects of our client companies, guaranteeing high quality of service and effectiveness, favoring the optimization of costs.

- Exhaustive profile screening (background check)
- Recruitment (attractive means according to the business)
- Resume selection
- Personal interviews (face-to-face and virtual)
- Candidate evaluation (online dynamics, assessment, interactive, languages, questionnaires, video interviews)
- Presentation to the client
- Recruitment follow-up (Development, Motivation and Coaching focused on the project)

We understand this service as a key tool to help our clients achieve their goals, aligning ourselves with their business strategy.

- ✔ **Drupal Development / Wordpress**
- ✔ **Magento eCommerce support & Development**
- ✔ **Woocommerce eCommerce development, maintenance, and support**
- ✔ **APIs Development and maintenance**
- ✔ **Marketing web**

Why Argentina?

✔ EDUCATION & DIVERSITY

Many high school students around Latin America choose Buenos Aires for their university studies. There are more than a hundred thousand undergraduate and postgraduate students in the city, the majority of whom stays in the capital to work in professional roles after graduating.

✔ ATTITUDE & EXPERIENCE

+70% of graduates get out of university with a top-level degree and a solid experience by the time they finish their studies thanks to having worked through their education. In addition, Argentina boasts Latin America's best speakers of English which makes its professionals the best skilled in international markets.

✔ MATURE MARKET

Argentina has been catering local and multinational firms oriented to managed services for more than 25 years. It started then with a few players serving the US market and it has now become a mature outsourcing destination for many domestic and global companies.

Why Argentina?

✔ ARGENTINE CULTURE

As most Argentines are of European descent, professionals in Argentina are seamlessly in line with the needs of their clients. The misunderstandings that come up from the culture gap in other parts of the world will not exist with Argentinian providers.

✔ VALUE FOR MONEY

Argentina leads in total solutions ownership costs. Prices are lower than many US firms. On time deliveries. No overruns, reworks and unbudgeted support costs. Value for money is where Argentina excels
