

## Customers expect an amazing product

The integration between systems and technology that excites our customers, is what makes the difference in Dynamia.

We work with dynamic entrepreneurs, making its first product possible, faster and successful. We turn ideas into products, investigating, advising and building next-generation technology solutions, integrating software and hardware. For more than 15 years, we work with global teams, using agile methodologies, and proactive to get the best solution.

No project is small for us and we escalate quickly with our customers. In a market where getting fast and first is key, we empower us with the passion of our team who besides the rigorous methodology and customer relationships, achieve results before others. Our global reach helps us to understand the habits and cultures of each region and also allows us to quickly replicate what we see with success.

**we are dynamia**

HTML 5  
CSS 3

## Certifications

# Featured project

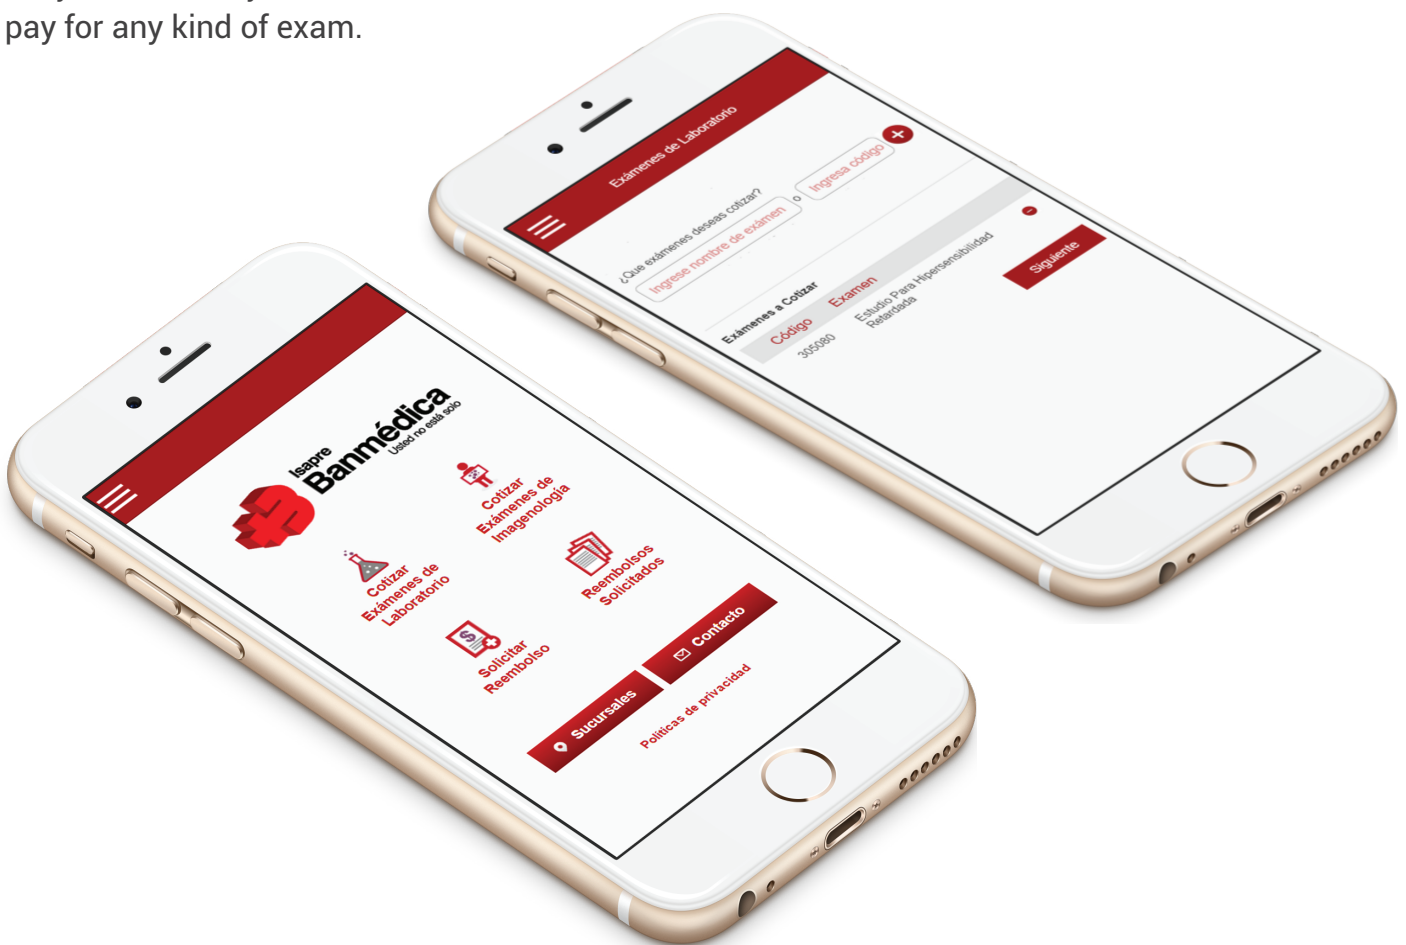

## Banmedica (Chile)

Phonegap, Cordova for iOS and Android

Banmedica is one of Chile's largest health care providers. Thousands of persons schedule exams on a daily basis. To provide a better service and facilitate the process, Banmedica asked us to create a mobile solution that would allow every patient an easy and fast way to schedule and pay for any kind of exam.

**Banmédica**

## Our solution

We provided a full time team dedicated to address Banmedica's needs. The client was in constant contact and able to follow the development process, testing and quality assurance in detail. Project managers meet in Chile with Banmedica senior staff members to coordinate the development.

## QUALITY OF OUR SERVICE

We are committed to achieve great results for our customers.
