

Organic food is through sustainable production model, focused on quality, animal welfare and soils.

Organic and natural have no chemicals or additives. They have flavor and quality.

That is why we work on its dissemination. That is why we designed a Business Unit to approach them with a strategic vision.

**BUNCH**

AGRO

We are an agricultural business company that establishes productive links between countries and producers, suppliers and customers, people and ideas.

Our Business Unit - Organic and Natural Foods  
- has a wide portfolio of products:
