COMPANY

We have been producing our Mazzi Caffè and Café Baronesa coffee brands – 100% Arabica coffee – since 1996. Our farm is located at Fazenda Mundo Novo in the Campo das Vertentes region in Bom Sucesso. We feature GI (Geographical Indication) and IP (Indication of Origin) for our universe of specialty coffees and processes related to coffee production.

Our coffee plantations are farmed in mountains boasting highly fertile soil, surrounded by Permanent and Legal Reserve forests.

PRODUCTS

Because it is a superior coffee species, it requires extra care when it comes to planting, managing and harvesting. Harvesting is done manually and selectively. The careful selection and roasting process ensure a superior quality product – a coffee with an intense, full-bodied flavor that is sweet, yielding a delicious aroma and the citric acidity desired in a gourmet coffee that is enjoyed by the most demanding consumers.

Fazenda Mundo Novo is certified in the Certifica Minas Café program and all required compliance is applied in coffee production. We received a prestigious award from the ABIC (Brazilian Coffee Industry Association) in the Origins of Brazil-Campo das Vertentes category as one of the best coffees in Brazil during the 2019-2020 harvest year.

We grow farm-raised green coffee and employ a selective harvesting system. We produce natural coffee and processed pulped cherry coffee that are sold in 60 kg bags.

Mazzi Caffè: roasted and ground coffee in 250g packaging.
