“I’ll take noni as long as I live!”

Cristine, a native of Texas, is just one example of the hundreds of individuals whose lives – and cardiovascular health – have been changed because of noni. She says:
“For the past ten years, I have suffered from various health problems. First, my carotid artery has been 80 percent blocked, inoperable, with transient ischemic attacks, commonly known as ‘mini-strokes’. I suffer from high blood pressure and tachycardia (excessively fast heartbeat), and I also have a benign cyst wrapped around my 7th cranial nerve. Having this cyst removed, according to my doctor, probably would result un paralysis of the entire left side of my face, including loss of taste, eye-lid control, uncontrolled drooling, and other conditions.

Needless to say, the many medications I have been taking (and that have supposedly ‘kept me alive’) have produced the following side effects: extreme fatigue, blurred vision, occasional disorientation, abnormal liver enzymes, loss of appetite, diarrhea, severe headaches, bleeding gums, and others. I’d had enough!

Not along ago, I began taking noni juice, starting with a one-ounce dose in the morning and evening, then increasing to a two-ounce dose, and now I am taking a four-ounce dose twice daily. The results have been marvelous. The ‘mini-strokes’ have disappeared, and I’ve cut my medication by 50 percent! My blood pressure has lowered to normal, and the tachycardia is gone. The cyst has significantly decreased in size! I have no more diarrhea, my headaches are gone, the bleeding gums are only a memory, and my energy levels have returned – I’ll be drinking noni for the rest of my life!”
