## Kauffer Being and Living Style

Our team at Kauffer Pilates prides ourselves on delivering outstanding product quality and customer service. We have a modern production structure with high standard material and spare no exports to develop products that meet the professional needs of pilates.

Founded in 2011, in São José -Florianópolis, Kauffer acts throughout the national market and in full expansion of the International market, producing Pilates equipment in Brazil for the whole world.

Our mission is to develop the pilates market across the world in collaboration with our clients and customers. We offer innovative, customized, high quality equipment.

What makes us special? Our staff build, live and breathe Kauffer. Not only to do design, test, produce, and sell this equipment, but we use it every day to better ourselves.

*Strength in the right measure  
and incomparable durability.*

# CADILLAC

**Width: 77.8cm**

**Height: 212cm**

**Length: 234cm**

Air structure in stainless steel with joints of cast steel. More strength and accuracy for the equipment;

EVA Padding, more comfortable and durable than foam. Does not deform during use. Coated in nautical synthetic leather;

Table support trapezoid with a wider range of handle;

Finishing in automotive paint. More beauty and strength to the piece;

Contact area with hands and feet bathed in vulcanized rubber. Sweat resistant and exact adhesion;

Upholstered trapezius. More comfort for the exercises;

Support strap with neoprene finishing;

Bearing developed with parts molded in Polyacetal, extremely sturdy and accurate, provides a smooth sliding. The bar that completes the set is in brushed stainless steel;

Springs e-coat finishing high corrosion protection, higher quality and durability of the coated surface compared with nickel-plated springs.

## Accessories included:

Fuzzy hanging strap (pair);

Foot/hand loops (pair);

Handles (pair);

1 safety strap;

1 support strap;

1 abdomen strap;

10 springs;

22 carabiners;
