AMARANTH

SUPERFOOD FROM THE ANDES

Amaranth is a cereal rich in fiber and protein, as well as many important micronutrients.

Our cacao is cultivated in the Province of Los Rios, Ecuador. Its fine aroma comes from the vegetation and fruits of the area.

AMARANTH

SUPERFOOD FROM THE ANDES

Amaranth

✓ Cholesterol-Free ✓ Low-Fat

✓ Gluten-Free ✓ Low-Sodium

Considered a more complete protein than other grains because of its high amounts of essential amino acids

AMARANTH

A cereal considered to be a superfood, rich in vitamins A, B, C, B1, B2, B3, B5, calcium, iron, potassium, phosphorus, sodium, zinc, lysine, and proteins. It is also gluten-free.

AMARANTH

Most amaranth in American food products start as a ground flour, blended with wheat or other flours to create cereals, crackers, cookies, bread or other baked products.
