

## ABOUT US

Creamery Novelties Limited, the most recent addition to HADCO Group, was established in 2018. A partnership between the Hadad brothers and Paul Gabriel, Creamery provides premium and affordable ice cream tubs and novelties in a wide variety of flavours. Our products are available at all major supermarkets and retail outlets in Trinidad and Tobago and our intention is to expand distribution beyond our shores to CARICOM and Latin America.

## OUR CULTURE OF QUALITY AND SAFETY

We uphold the highest standards in our manufacturing process and emphasize safe and sanitary conditions for our employees and for production. Our equipment has few touch points to ensure that our ice cream production is fast and effective; all within a hygienic environment and in alignment with international standards. We have also thoroughly researched each step of production, from product development and quality control to taste testing and packaging, to guarantee a product of superior quality.
