# 1 - Hair Retexturing line

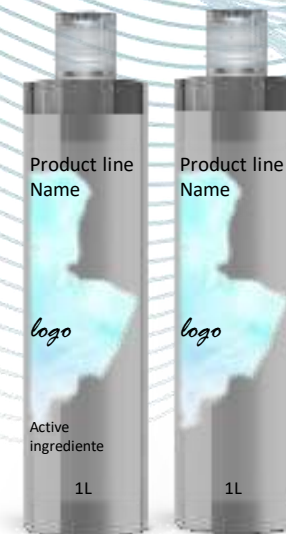

Intensive hair treatment that reduces hair volume, eliminates frizz and provides a more tame, natural straight look to the hair strand. Nourish and deeply moisturizes the strands, aside from the amazing shine that it provides and the strengthening of the hair structure, avoiding breakage.

## Active ingredients

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

## Active ingredients options

- Lumini system
- Lunamatrix system
- Nano amino acids
- Argan Oil

- Technik shampoo1L
- Retexturizer 1L

## 2 - Cauterization line

Instant and intensive treatment with reconstructive action, reduces the high porosity and hair breakage. Perfect for fine hair treatment of damaged and lifeless hair, seals cuticles, along with detangling the strands, restore the hair strength, providing extra shine and frizz control.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

### **Active ingredients options**

- Keranutri

## 3 - Hair schedule line

It provides deep conditioning, nutrition, and reconstruction. Also, stimulates natural oil production, which is essential for healthy hair. It works directly into the damage and gives back health and moisture to the hair. It also rescues the shine and provides a silky touch.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

## 4 - Curly hair line

It acts into the hair care hair from the cleansing to the styling. It offers a gentle cleanse, nourishment and repairment, along with the curl's definition and frizz control. Nourish and style the strands, for a voluminous and defined hair. It also provides shiny and smooth hair.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

### **Active ingredients options**

- Macadamia oil
- Shea butter
- Cupuassu butter
- Coconut milk

## 5 - Hair growth line

It stimulates the hair strands, so they are able to grow strong, healthy and thick. It provides strength to the hair, preventing breakage and split ends, without leaving a rough touch. It also features a revitalizing action since it acts right into the scalp, stimulating the strands growth and leaving them stronger and more resistant.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

### **Active ingredients options**

- Green clay
- Capilmax
- Bamboo extract
- Mint extract

## 6 - Post chemical line

It nourishes, moisturizes and protects the dry strands damaged by chemical procedures. It helps to reduce volume and frizz to provide smoothness and constant shine. It also returns the natural moisture to the hair fiber and preserve that natural moisturizing for much longer into the hair cortex, something essential for having a smooth touch and glow.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.

### **Active ingredients options**

- Nano amino acids

## 7 - Color extend line (blonde hair)

It acts into the main blonde hair needs: It neutralizes unwanted yellowish tones for the sake of maintaining an intact and vibrant blonde, it nourishes and reconstruct the hair to fill the porosity damage and guarantees an evenly smooth touch from the root to the ends of the hair. It provides stronger, shinier and bouncy hair with a perfect color.

### **Active ingredients**

Our formulas are highly technological and features actives ingredients in high concentration. We offer some suggestions of the best and main active ingredients for each hair cosmetics range.
