Farmers' lives have been touched globally

SPICE PROCESSING

- Jain Farm Fresh has a state of the art production facility in Jalgaon and an upcoming facility in Turkey, capable of processing herbs and spices. The facility in Jalgaon has an installed capacity of more than 24000 MT.
- Partnership with more than 8000 Farmers across the nation towards spice procurement by providing them with varietal development of spices and seeds along with the implementation of JainGAP.
- The program ensures implementation of Integrated Pest Management Program (IPM) to control the incidence of Pest Infestation in spice production while also providing last mile traceability till farm/ farm cluster level
- All the spices are processed using State of the Art Steam Sterilisation and heat treatment to maintain authenticity and purity

VEGETABLE PROCESSING

- Second largest onion dehydrator in the world with processing plants in Jalgaon, Baroda and Oregon, USA having an installed capacity of 250,000 MT. The facilities process a range of products including White Onion, Red Onion, Garlic, and other vegetables
- Successful partnership with more than 8000 farmers.
- Production follows Food Safety Management Systems. Stringent plant sanitation, hygiene standards are enforced to ensure products follow global food safety norms
- Dehydrated Ingredients Division (DID), formerly known as Cascade Specialities Inc. also processes organic onions
- Frozen Ingredients Division (FID), formerly known as White Oak Frozen Foods, is a manufacturer and supplier of conventional and organic natural and fire roasted Reduced Moisture™ (RM) ready to eat IQF vegetables.
