ATLANTYS - AQUARIUM SPECIAL CARE PRODUCTS

ALG-REM

Presentation

- Bottle containing 15ml.

Indicated to control unwanted algae in tropical fish aquariums. Use on freshwater fish.

BACTERICIDE AND FUNGICIDE

Presentation

- Bottle containing 15ml.

Indicated to prevent and treat bacterial and fungal infections, commonly occurring in tropical aquarium fish. Use on freshwater fish.

BIOELEMENTS

Presentation

- Bottle containing 15ml.

Stabilizes water of ornamental fish aquarium with elements naturally found in river waters. Use on freshwater fish.

CLARIFYING

Presentation

- Bottle containing 15ml.

Controls and reduces turbidity caused by microparticles dispersed in suspension in aquarium water. Use on freshwater fish.

ACIDIFYING CORRECTIVE

Presentation

- Bottle containing 15ml.

Corrects pH of the aquarium water, reducing its value to provide appropriate conditions to the habitat of ornamental fish. Use on freshwater fish.

ALKALIZING CORRECTIVE

Presentation

- Bottle containing 15ml.

Corrects pH of the aquarium water, increasing its value to provide appropriate conditions to the habitat of ornamental fish. Use on freshwater fish.

DECHLORINATOR

Presentation

- Bottle containing 15ml.

Eliminates the chlorine dissolved in the water, which is unsuitable for the fish's habitat. Use on freshwater fish.

MOL-REM

Presentation

- Bottle containing 15ml.

Promotes cleaning and keeps tropical fish aquariums sanitized. Use on freshwater fish.

PLANT NUTRIENTS

Presentation

- Bottle containing 15ml.

Contains important trace elements for aquatic plants, often used as a refuge or food for fish. Use on freshwater fish.

OODI-REM

Presentation

- Bottle containing 15ml.

Promotes aquarium cleaning and keeps the aquarium water sanitized, preventing the accumulation of dirt and the proliferation of undesirable organisms that cause bad smell. Use on freshwater fish.

PARASITICIDAL

Presentation

- Bottle containing 15ml.

Indicated to control infestations and treat the most common parasitic infections in tropical aquarium fish. Use on freshwater fish.

BUFFER 7.0

Presentation

- Bottle containing 15ml.

Indicated to keep pH value of aquarium water constant. Use on freshwater fish.

CHLORINE TEST

Presentation

- Bottle containing 10ml.

Indicated to monitor chlorine levels in aquarium water. Use on freshwater fish.

PH TEST II

Presentation

- Bottle containing 10ml.

Indicated to perform pH testing of tropical aquarium water. Use on freshwater fish.

COMPOUND TONIC

Presentation

- Bottle containing 15ml.

It conditions the aquarium water, improves oxygen absorption by the fishes and reduces stress during handling. Mainly used during partial changes of aquarium water. Use on freshwater fish.

CAT&CO. - EXCLUSIVE LINE FOR CATS

CAT&CO. DRY BATH

Presentation

- Bottle containing 50ml.

Indicated for hygiene without the use of water. The product in mousse facilitates the application and doesn't stress the cat.

CAT&CO. COLOGNES

Presentation

- Bottle containing 50ml.

Indicated to perfume cats. Available in 3 fragrances: Male, Female and Baby Cologne.

CAT&CO. GOOD BREATH

Presentation

- Bottle containing 500ml.

Indicated to clean ambiances inhabited by cats. It has an exclusive enzymatic complex that neutralizes odors and removes urine stains, vomit and other excrement from cats. Ideal for cleaning the cat box and removing stains.

VITALLEDERM HYPOALLERGENIC SHAMPOO

(LIME GLYCOLIC EXTRACT, OAT GLYCOLIC EXTRACT, DECYL GLUCOSIDE)

Presentation

- Bottle containing 300ml.

Indicated for sensitive and delicate skin. It offers cleaning in a smoothly way, ideal for sensitive skin.

VITALLEDERM OIL FREE SHAMPOO

(TEA TREE OIL, HYGEAPHOS, DIMETHICONE PEG12)

Presentation

- Bottle containing 300ml.

Indicated for cleaning the skin and coat of dogs and cats. Remove oil excess without causing dry skin.

VITALLEDERM CONDITIONER

(BORAGE OIL, ALOE VERA, LICORICE EXTRACT)

Presentation

- Bottle containing 300ml.

Indicated to condition and moisturize coat and skin of dogs and cats. Contains in its formulation natural substances such as Borage oil, Aloe vera and Licorice extract, which prevent dryness of the skin and coat.

VITALLEDERM ALIVISKIN SOOTHING LOTION

(BORAGE OIL, GLYCERIN, LETTUCE GLYCOLIC EXTRACT, CHAMOMILE GLYCOLIC EXTRACT)

Presentation

- Bottle containing 100ml.

Indicated to promote deep hydration to sensitive skin. The lotion provides comfort, freshness and hydration for sensitive skin.

VITALLEDERM SKINSEC SPRAY

(UREA, D-PANTHENOL, GLYCERIN)

Presentation

- Bottle containing 100ml.

Indicated to dogs and cats with dry and sensitive skin. The product hydrates and helps to regulate skin's humidity.

VITALLEDERM SKINREG REGENERATING OINTMENT

(PROPOLIS GLYCOLIC EXTRACT, CALENDULA GLYCOLIC EXTRACT, LANOLIN)

Presentation

- Cartridge containing 1 tube of 60g.

Indicated to help in the restructuring and hydration of sensitive and dry skin. It helps to restructure the balance of the skin.

DOG&CO. - EXCLUSIVE LINE FOR DOGS

DOG&CO. PRE-WASH SHAMPOO

Presentation

- Bottle containing 1L or 5L.

Indicated for a deep cleaning without damaging the dogs' coat, promoting cleanliness and brightness. To be used before the regular shampoo.

DOG&CO. COLOR SHAMPOO

Presentation

- Bottle containing 1L or 5L.

Indicated for protection of the color before photo-degradation, optimizing the lustrous appearance of the coat in addition to leaving it stronger and resistant to breakage, increasing the shine and enhancing the coloration of the coat. Use on dogs of all ages with golden or brown coat.

DOG&CO. WHITENING SHAMPOO

Presentation

- Bottle containing 1L or 5L.

Indicated to reactivate the white shade of the coat. Prevents and diminish yellow stains in a progressive way.

DOG&CO. DARK COATS SHAMPOO

Presentation

- Bottle containing 1L or 5L.

Indicated to enhance the dark coat color, deepening the colour. Can be used on dogs with dark coats.

DOG&CO. ULTRA VOLUME SHAMPOO

Presentation

- Bottle containing 1L.

Indicated to clean and increase shine and volume of the coat.

DOG&CO. OIL CONTROL SHAMPOO

Presentation

- Bottle containing 1L.

Indicated for hair and skin cleaning. Removes oil excess of dog's coat without drying out skin.

DOG&CO. EAR CLEANING SOLUTION

Presentation

- Bottle containing 480mL.

Indicated for cleaning the ears of adult dogs or puppies. It assists in removing the cerumen, preventing aggressive agents' accumulation and local irritations.

DOG&CO. DELICATE AREAS SHAMPOO

Presentation

- Bottle containing 1L or 5L.

Indicated to clean the skin and delicate areas of the dogs' head and snout. It promotes hygiene in a gentle way.

DOG&CO. DETANGLER

Presentation

- Bottle containing 200mL.

Nourishing hair solution that detangles and assists in the removal of hair knots. Makes brushing easier. Use on dogs of all breeds and ages.

DOG&CO. CONDITIONER

Presentation

- Bottle containing 1L or 5L.

Promotes condition, moisturize and facilitates the coat detangle. Use on dogs of all breeds and ages.

DOG&CO. FAST DRY

Presentation

- Bottle containing 500mL.

Spray indicated to speeding up the drying process after the bath, leaving the fur soft and easy to brush.

DOG&CO. - EXCLUSIVE LINE FOR DOGS

DOG&CO. MOISTURIZING MASK

Presentation

- Bottle containing 500mL.

Indicated to provide deep hydration and restructuring of the coat. Use on dogs of all ages and breeds.

DOG&CO. ULTRA VOLUME MASK

Presentation

- Bottle containing 500mL.

Indicated to condition, treat and detangle the dog's coat. Promotes a volume increase of coat. Use on dogs of all ages and coat types.

DOG&CO. FINISHER

Presentation

- Bottle containing 500mL.

Ensures better finishing of coat strands after the drying process, enhancing natural coat patterns, adding shine and softness. No rinse product. Use on dogs of all ages and breeds.

DOG&CO. ABSOLUTE STRAIGHT MASK

Presentation

- Bottle containing 500mL.

Indicated to give shine, keep hair straight and disciplined. Anti-frizz action. Use on dogs of all ages.

DOG&CO. TOTAL NUTRITION MASK

Presentation

- Bottle containing 500mL.

Formulated to intensely nourish the coat while maintaining the natural moisture barrier. Use on dogs of all ages and coat types.

DOG&CO. INTENSE REPAIR MASK

Presentation

- Bottle containing 500mL.

Repairs damaged coat supplying additional amino acids that strengthens and moisturizes the dog's hair. Restoring shine and promoting softness. Use on dogs of all ages and coat types.

DOG&CO. COLOGNES

Presentation

- Bottle containing 110 mL or 500mL.

Provides a pleasant perfume that refers to the natural essences present in the product.

DOG&CO. GLOW COLOGNES

Presentation

- Bottle containing 110 mL or 500mL.

Special edition with vivid and effervescent combinations of different aromas. It has a glow, similar to glitter.

DOG&CO. POWER HAND

Presentation

- Bottle containing 100g.

Indicated to provide appropriate texture to the coat prior to the "handstripping" grooming technique, facilitating hair removal.

DOG&CO. TEXTURIZER

Presentation

- Bottle containing 250mL.

Indicated to assist in finishing the coat, giving more texture and natural volume to the coat.

DOG&CO. ENDS REPAIR

Presentation

- Bottle containing 250mL.
