

FAMÍLIA  SALTON

Our adventure, your wines since 1910

The Família Salton has a modern approach, with wines appealing to adventurous consumers all over the world. Their expertise in producing sparkling wines (currently no. 1) is linked to the Veneto region from where the Salton family originated.

With a strong vision of the future, and respect for its heritage and the resilience of its people for more than a century, the company continues to invest in the well-being of its young and dynamic extended family, the sustainability of the land and the state-of-the-art winery. These strong pillars allow the family company to respond to the challenges of today's modern wine business with flexibility and vision.

On the same latitude as the Western Cape and Perth, WA, two of the most prestigious New World wine regions, Salton has always believed in the potential for Brazil to produce world class wines and is amongst the first to take them to the international stage. This pioneering spirit is the legacy their ancestors gave to the family and is proudly defended by the 4th generation of Salton.

“You can never cross the ocean unless you have the courage to lose sight of the shore”.

Giornata

140

From Italy to Brazil. From Veneto to Rio Grande do Sul. The patriarch of the family leaves his homeland with the dream of conquering America. And so, Domenico Domenico Salton began this journey.

The challenges overcome by patriarch inspired his descendants, who have been giving continuity to his history. The fruit of a long journey are harvested nowadays. We celebrate this legacy, toasting the journey.
