Keratin Control / Sebum Control / Clear Skin Tone

Cleansing mask for pore and keratin control that detects and purifies sebum and keratin in pores with rich vitamin foams

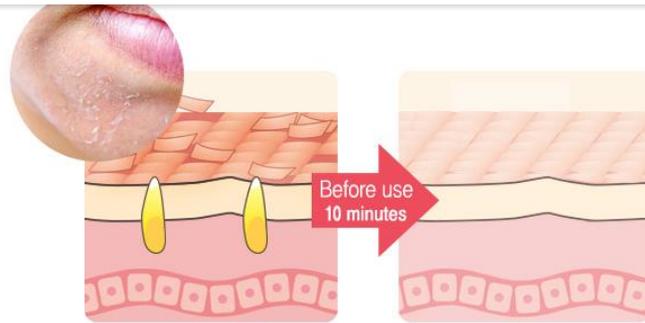

Rich vitamin foams

Making fine keratin clean by self Peeling effect

Rich bubbling vitamin foams detect and remove fine keratin with self Peeling effect while controlling sebum and bodily wastes in the pores.

Keratin on the skin makes the skin tone dark and it blocks the pores making skin troubles worse. In addition, if you have dead keratin on your skin, no matter how good your cosmetics are, they cannot penetrate deep into your skin, thus you cannot have their full effect.

So it is not too much to say that periodic removal of skin keratin is the beginning of the skin care that makes you young and healthy.
