# COMPANY PROFILE

## Home Glass sell idea/glass

Home Glass, your smart choice in glass industry.

### UK company

Home Glass is a UK company has three glass factories in southern China, has over 20 years of experience in glass industry focusing on decoration of interior of our house.

### Service

Home Glass can provide excellent service to match the most of our customers' request: fast response, quick action and excellent after-sale service.

# Business sectors

Glass is a manufacturer as well as a designer and a creator. Its products are divided into two sectors, one as glass for house including ceramic glass, hob glass, hood oven glass and refrigerator glass.

The other sector is as final products for house including sink with glass top, cutting board. In near future, Home Glass will create more and more things for our home relating to glass but not just glass. From black and white to golden and red, from flat and square till shaped and deformed, glass can be done much more than imagination.

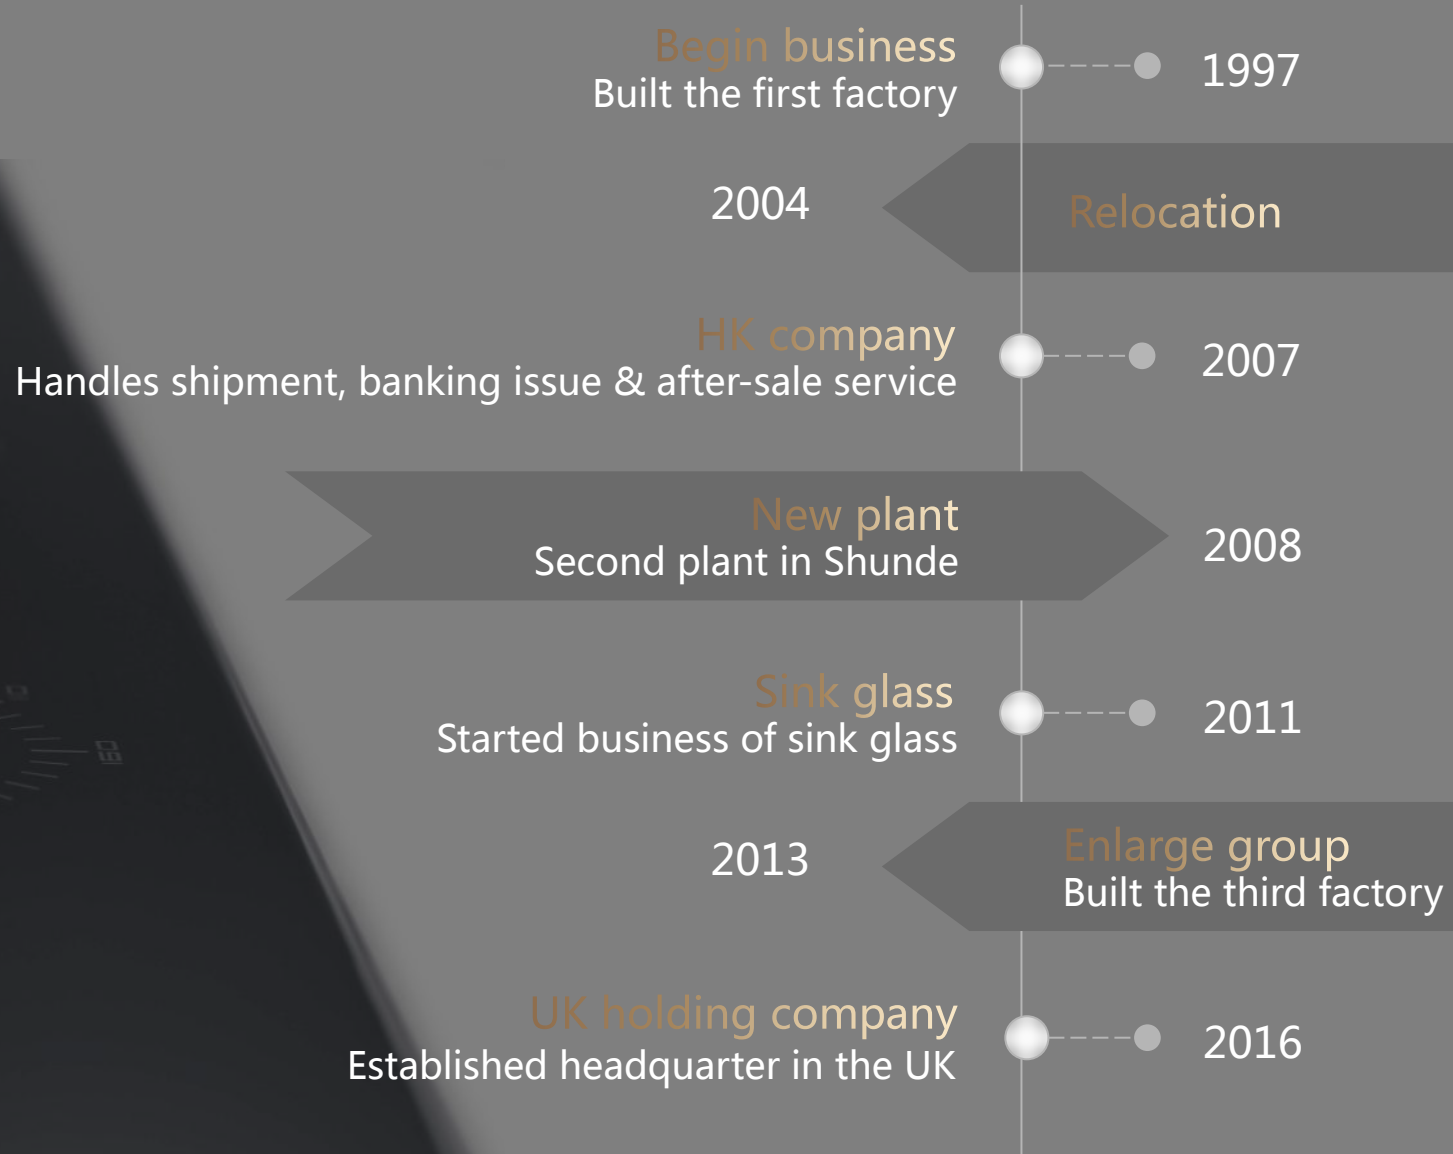

# Our Mission

Creating and bringing wares and equipment decorated typically with glass to lighten the life more brilliant.

Generating high value to its customers, partners and social society.
