

Travel back in time to Las Flores Resort El Oriente Salvaje...

About Us

Playa Las Flores is a dramatic, natural cove, hemmed in by severe topography and dense tropical flora, a playful black sand beach bordering a cauldron of whitewater and waves detonating in the background, a throwback in time to a prehistoric vision of Central America where the tropical waters of the Pacific Ocean meet the charcoal sands of ancient volcanic outflows. Cast within this primordial setting, Las Flores Surf Club has been developed using strategic planning for sustainable development under ISO 26,000. The resort is a juxtaposition of the jungle and the sea—a reconciliation between our primeval yearnings and modern addictions in a socially and environmentally responsible way.

The hotel features 15 ocean view guest rooms and suites with modern architecture and progressive design. The variety of accommodation can meet the needs of a diverse range of guests including singles, couples, families, groups, weddings, and corporate retreats with configurations ranging from 1 to 4 beds each. Current guest capacity has the ability to handle exclusive resort bookings as large as 45pp. However, in the interests of sustainability surf numbers are regulated with the number of surf passes sold each week limited to 18 or less.

Las Flores Resort and Surf Club lies on a stunning 7-acre beachfront property directly in front of the famous surf break and palm tree-lined postcard beach known as Las Flores. Playa Las Flores is on the outskirts of El Cuco, a small fishing village and sleepy touristic and residential beach zone for Eastern El Salvador's inhabitants as well as intrepid active lifestyle travelers from around the globe, approximately 150km SE (2 hours drive on major highways) from San Salvador international airport. The hotel offers shuttle service from San Salvador airport and San Salvador city hotels.

History

After nearly a decade of previous exploration and tourism activity in the area surrounding this magical location that began in the mid 1990s, Las Flores Resort opened in June of 2005 as the realization of a lifetime dream of 2 surfers with backgrounds in architecture and adventure travel. Thanks to our many loyal guests over the years, and our dedicated staff and management, the Las Flores family is very strong today and continuing to grow. We are blessed to call this nexus of Las Flores our second home and humbled that our guests have expressed the same feelings time and time again.

Yoga Deck & lounge

Hotel
