CASTILLA

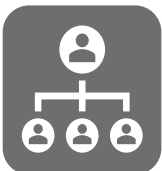

WORLD CLASS  
QUALITY

## ABOUT US

We are a talent manager for successful companies bringing together the most qualified professionals in the market according to the specific needs of our clients. We understand that new technologies have driven an important change in the labor market and therefore we specialize in 100% remote solutions for our clients, which allows them to generate savings by dispensing with physical spaces, having staff regardless of their location and finally providing their work team with the excellent benefit of working from home.

## OUR SERVICES

### STAFFING

We hire the staff and manage the payroll as part of our company, so customers only have a single monthly payment and we take care of the rest.

### HEADHUNTING

Following the needs of our clients we carry out the process of search and recruitment of personnel, who will be part of our client's payroll.
