

Presenting MUNDOH

People Well-being & Project Management Platform.

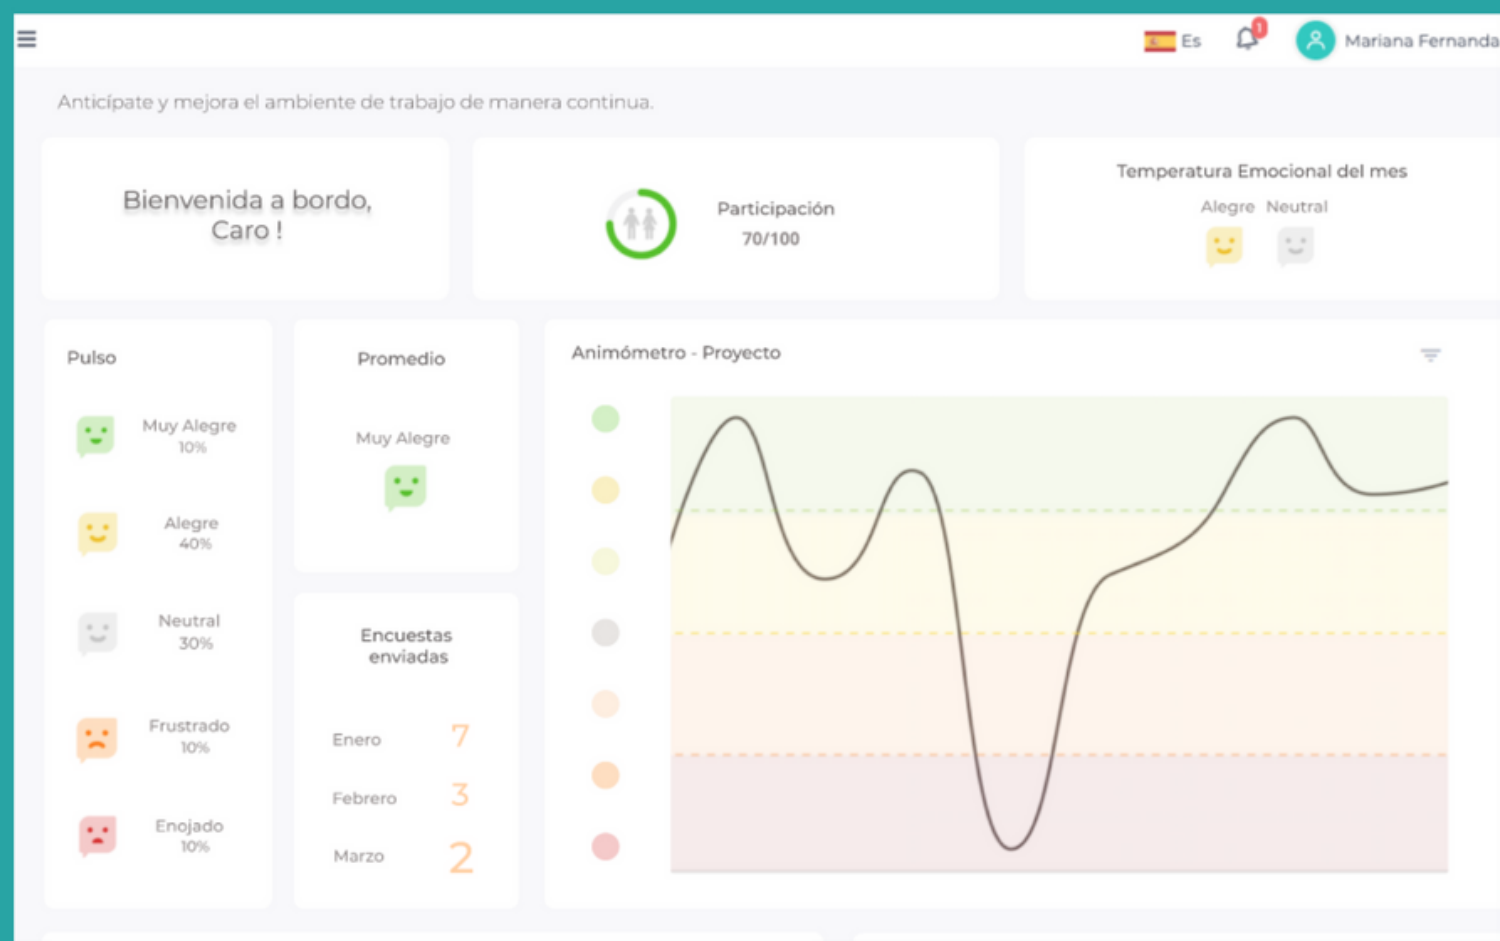

A Productivity model based on People Satisfaction.

MUNDOH

The intersection  
between project  
management, and  
emotions of your  
team and clients in  
real time.

## WHAT IS MUNDOH

It is a **5P Management Methodology** and **Human Centered Web Based Platform** Designed for Humans and Contexts, not for users.

**What would you be able to do  
by using Mundoh as a  
Methodology and Management  
Platform  
in 5 words?**

## 5P MANAGEMENT IN REAL TIME

People

Planet

Projects

Performance

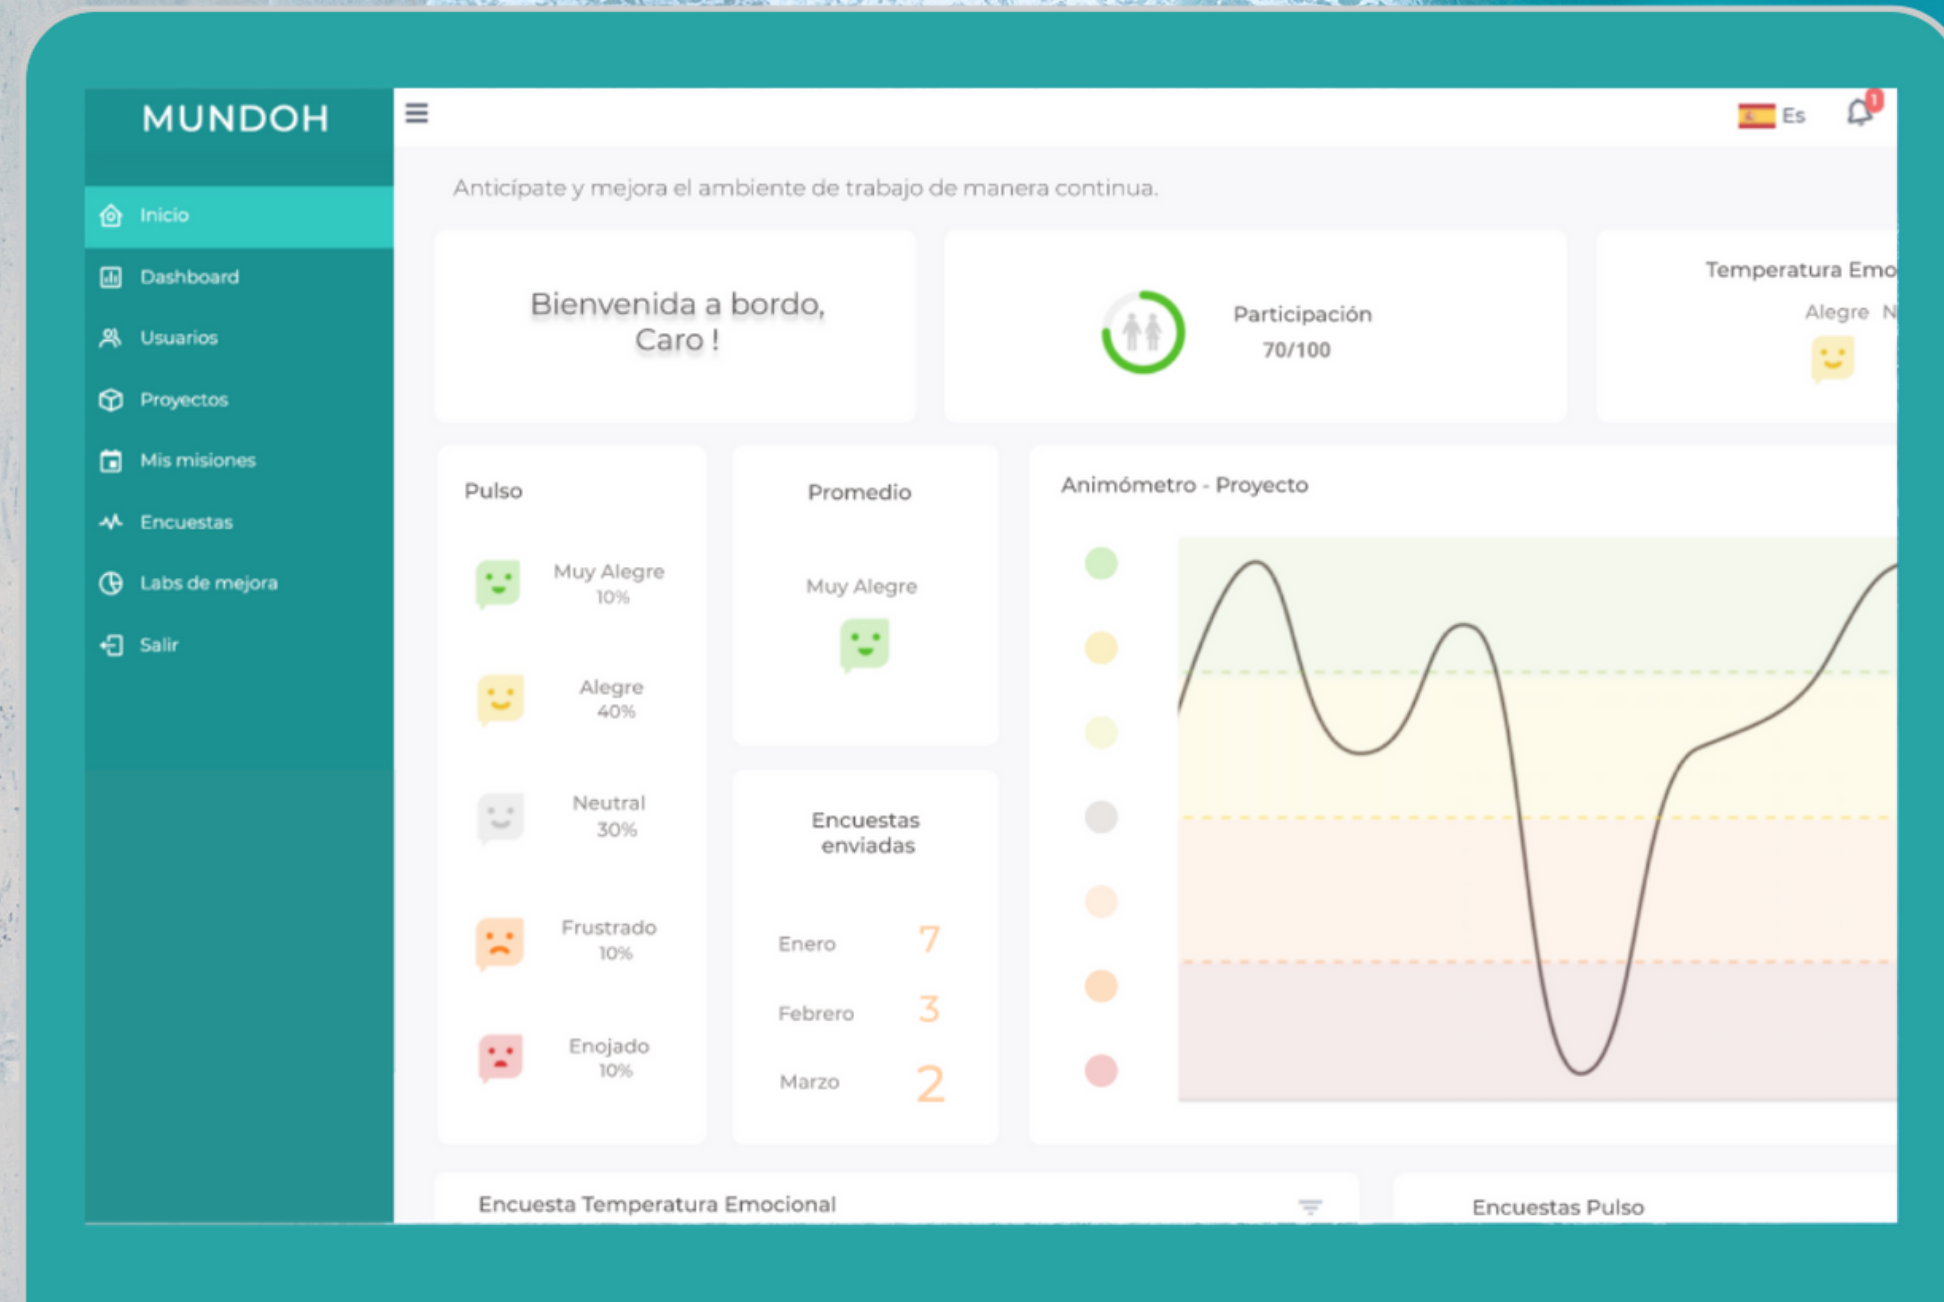

Productivity

What can you do, measure and solve with Mundoh?

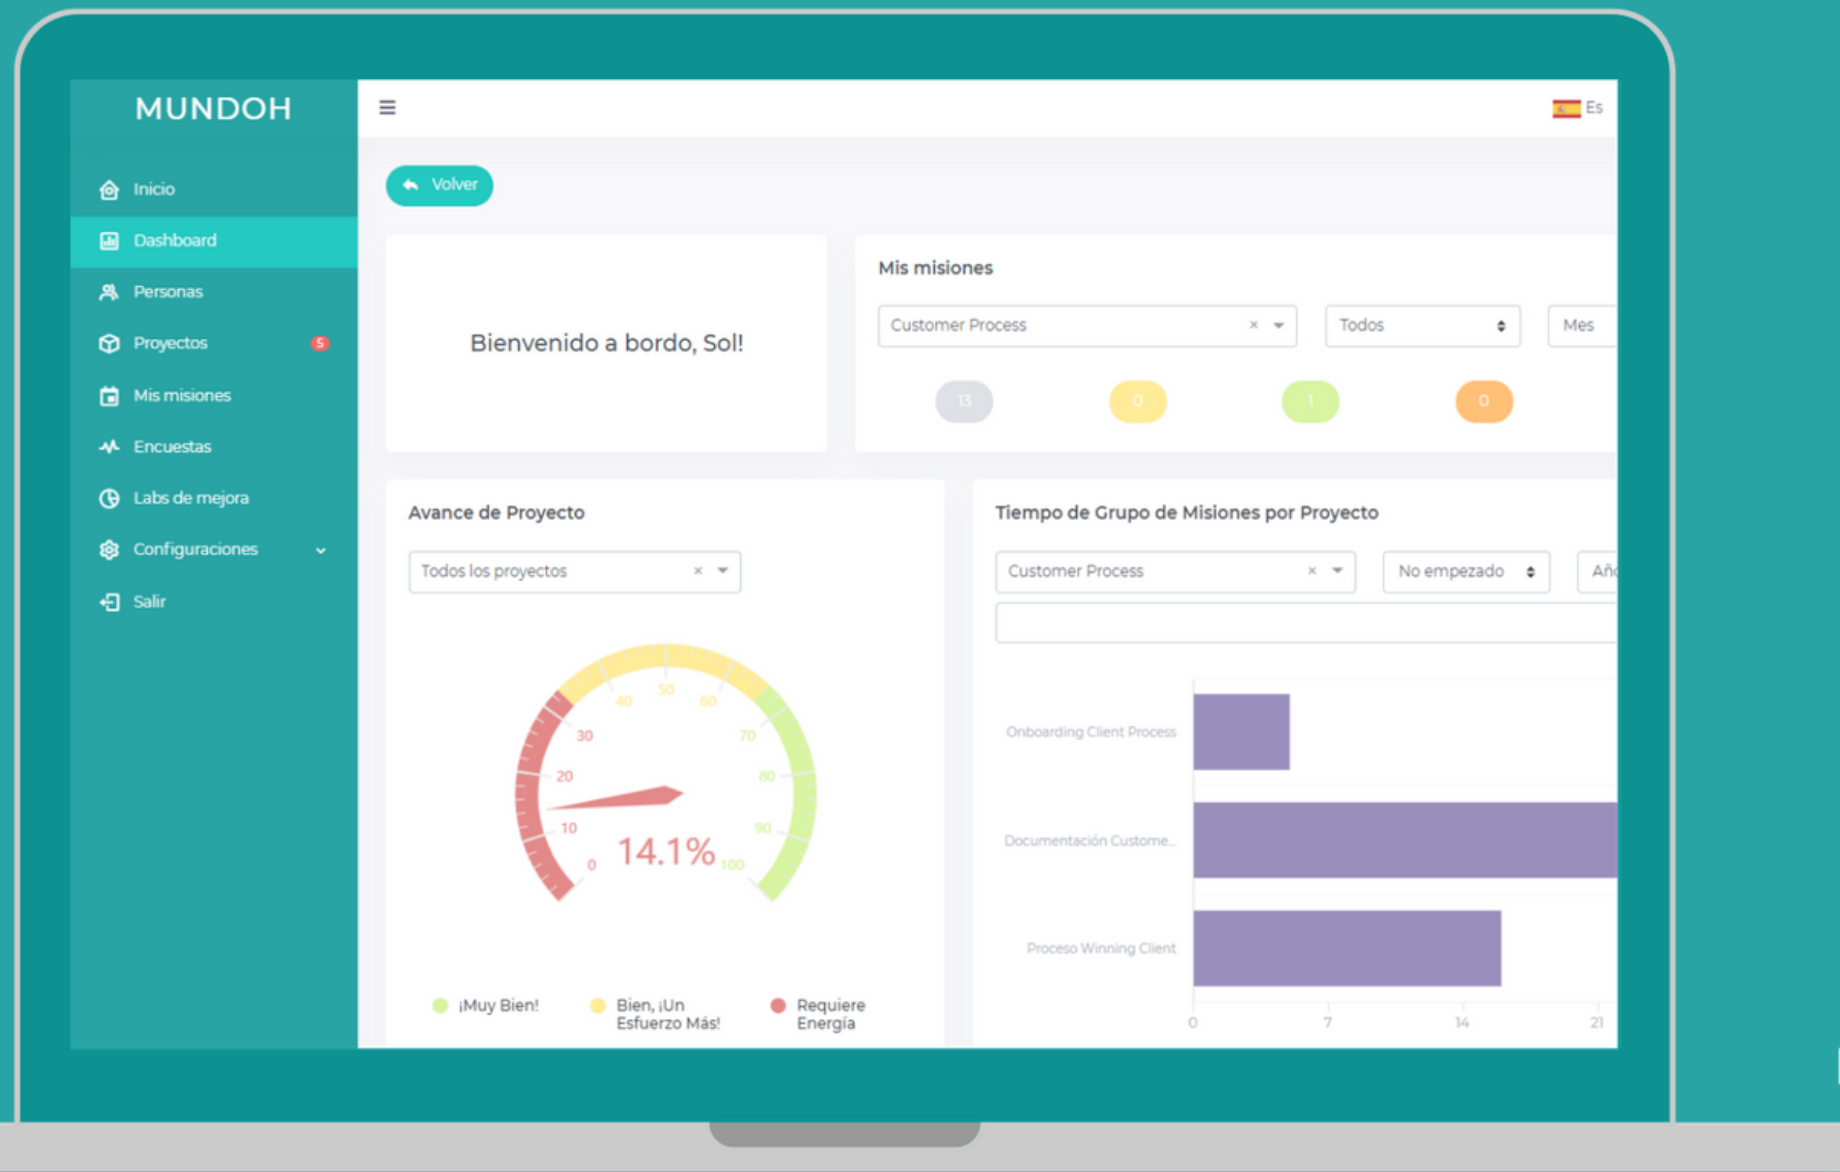

**MANAGE PEOPLE WELL-BEING**

Visualize the employee, client experience and satisfaction in real time and take action.

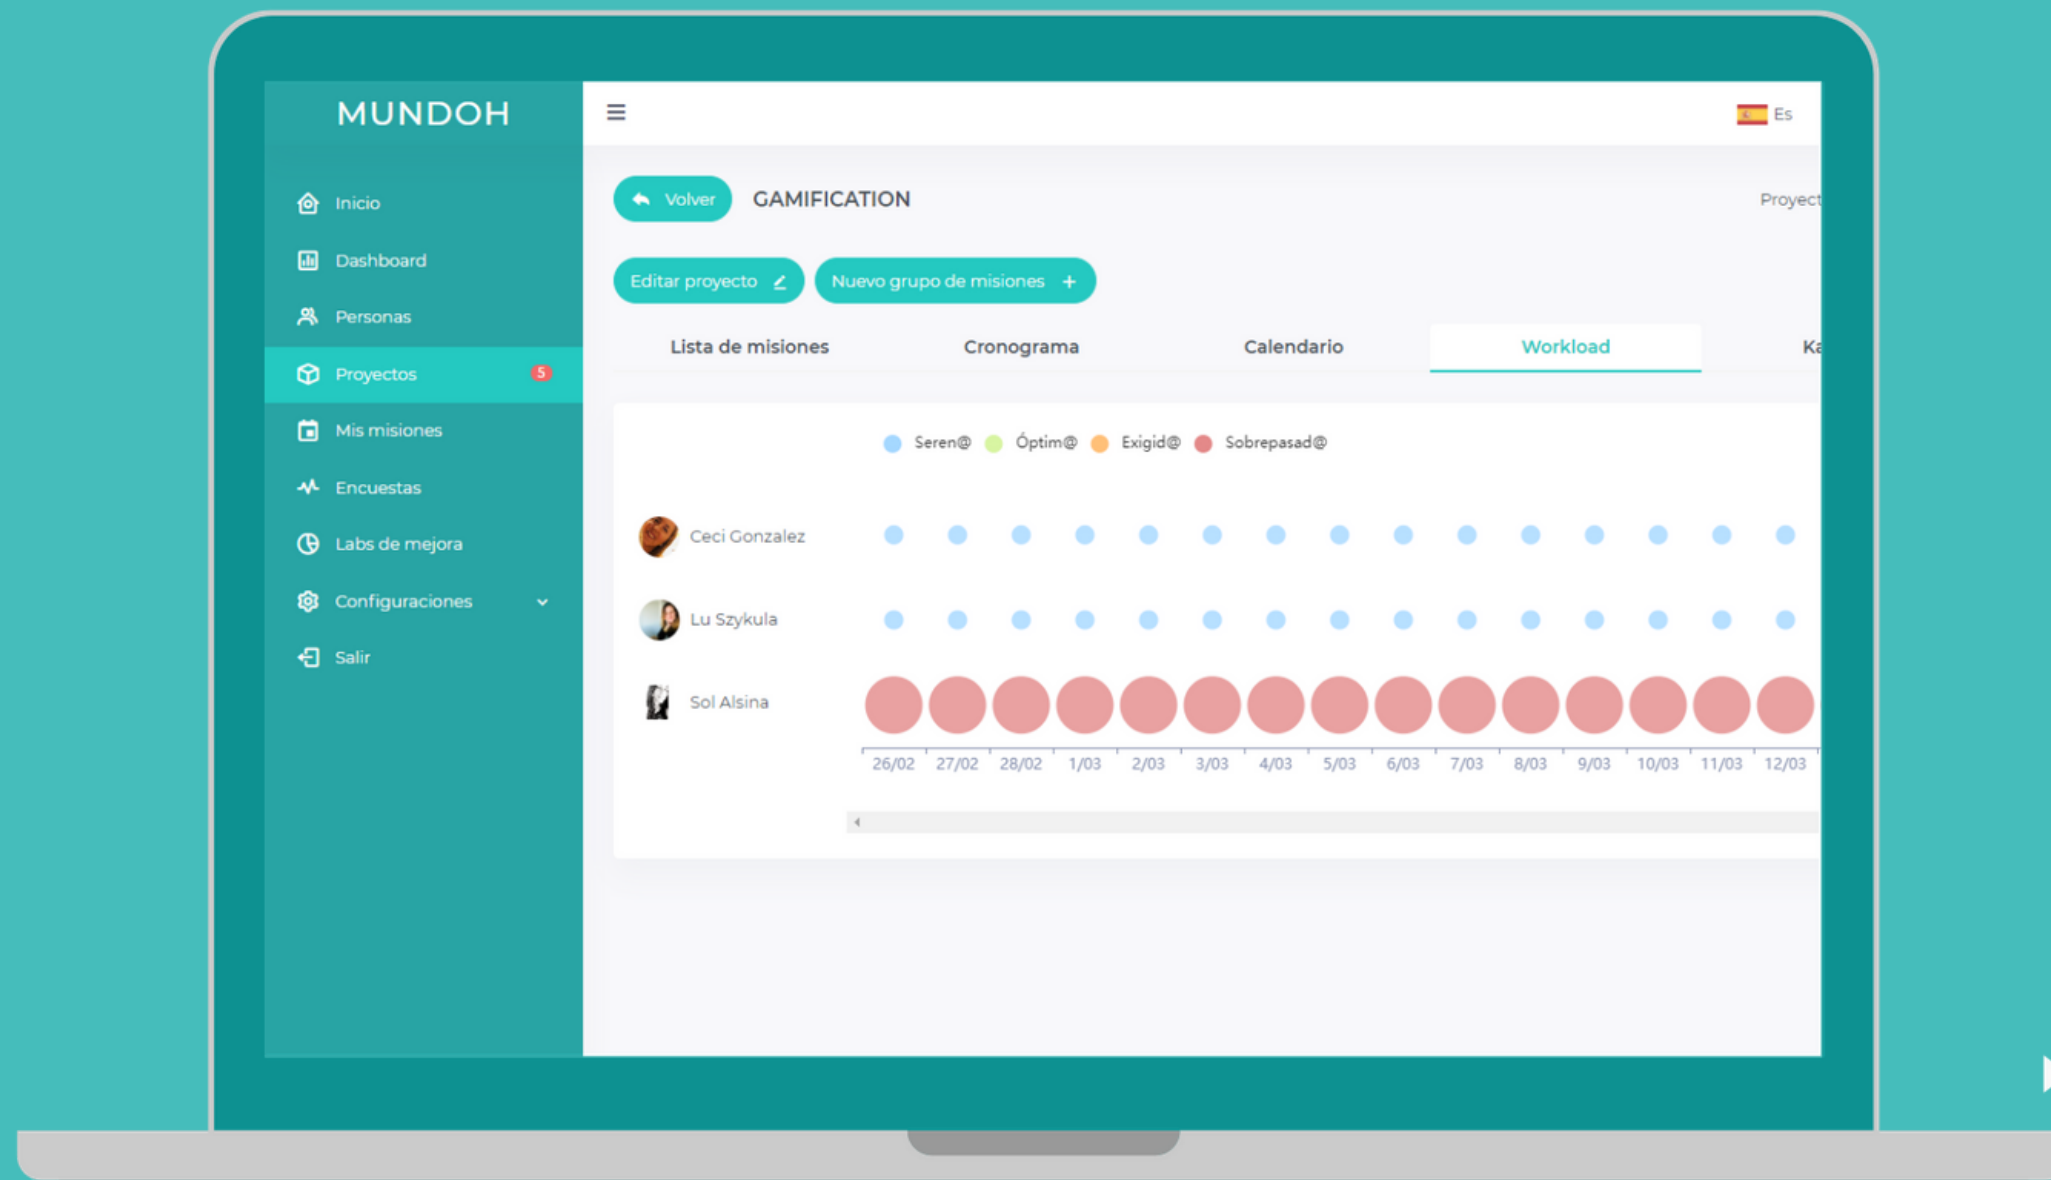

## MANAGE PROJECTS

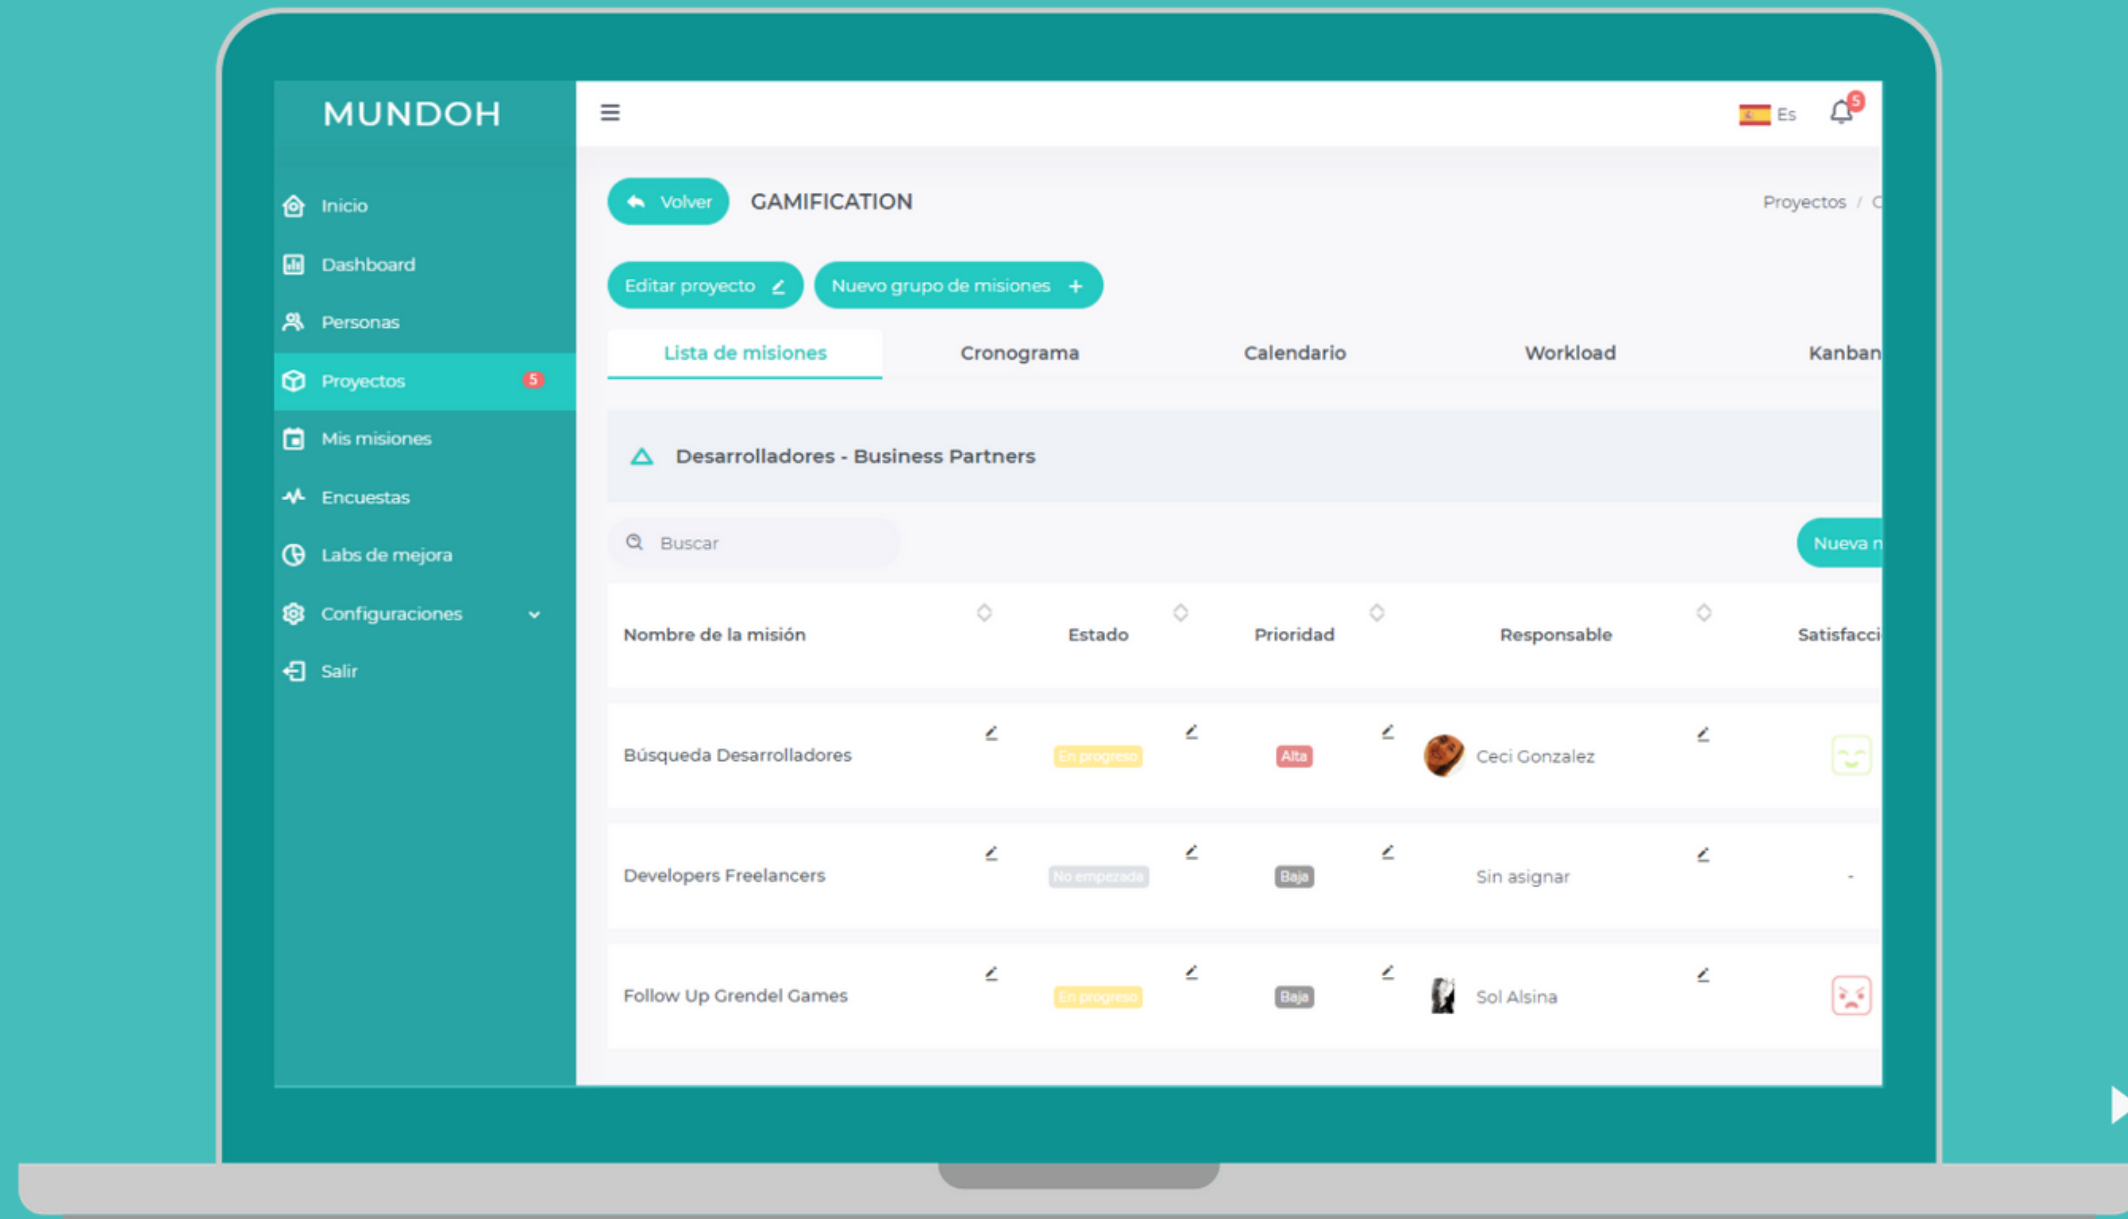

**Panoramic view of the status of your projects detecting improvement opportunities in real time.**

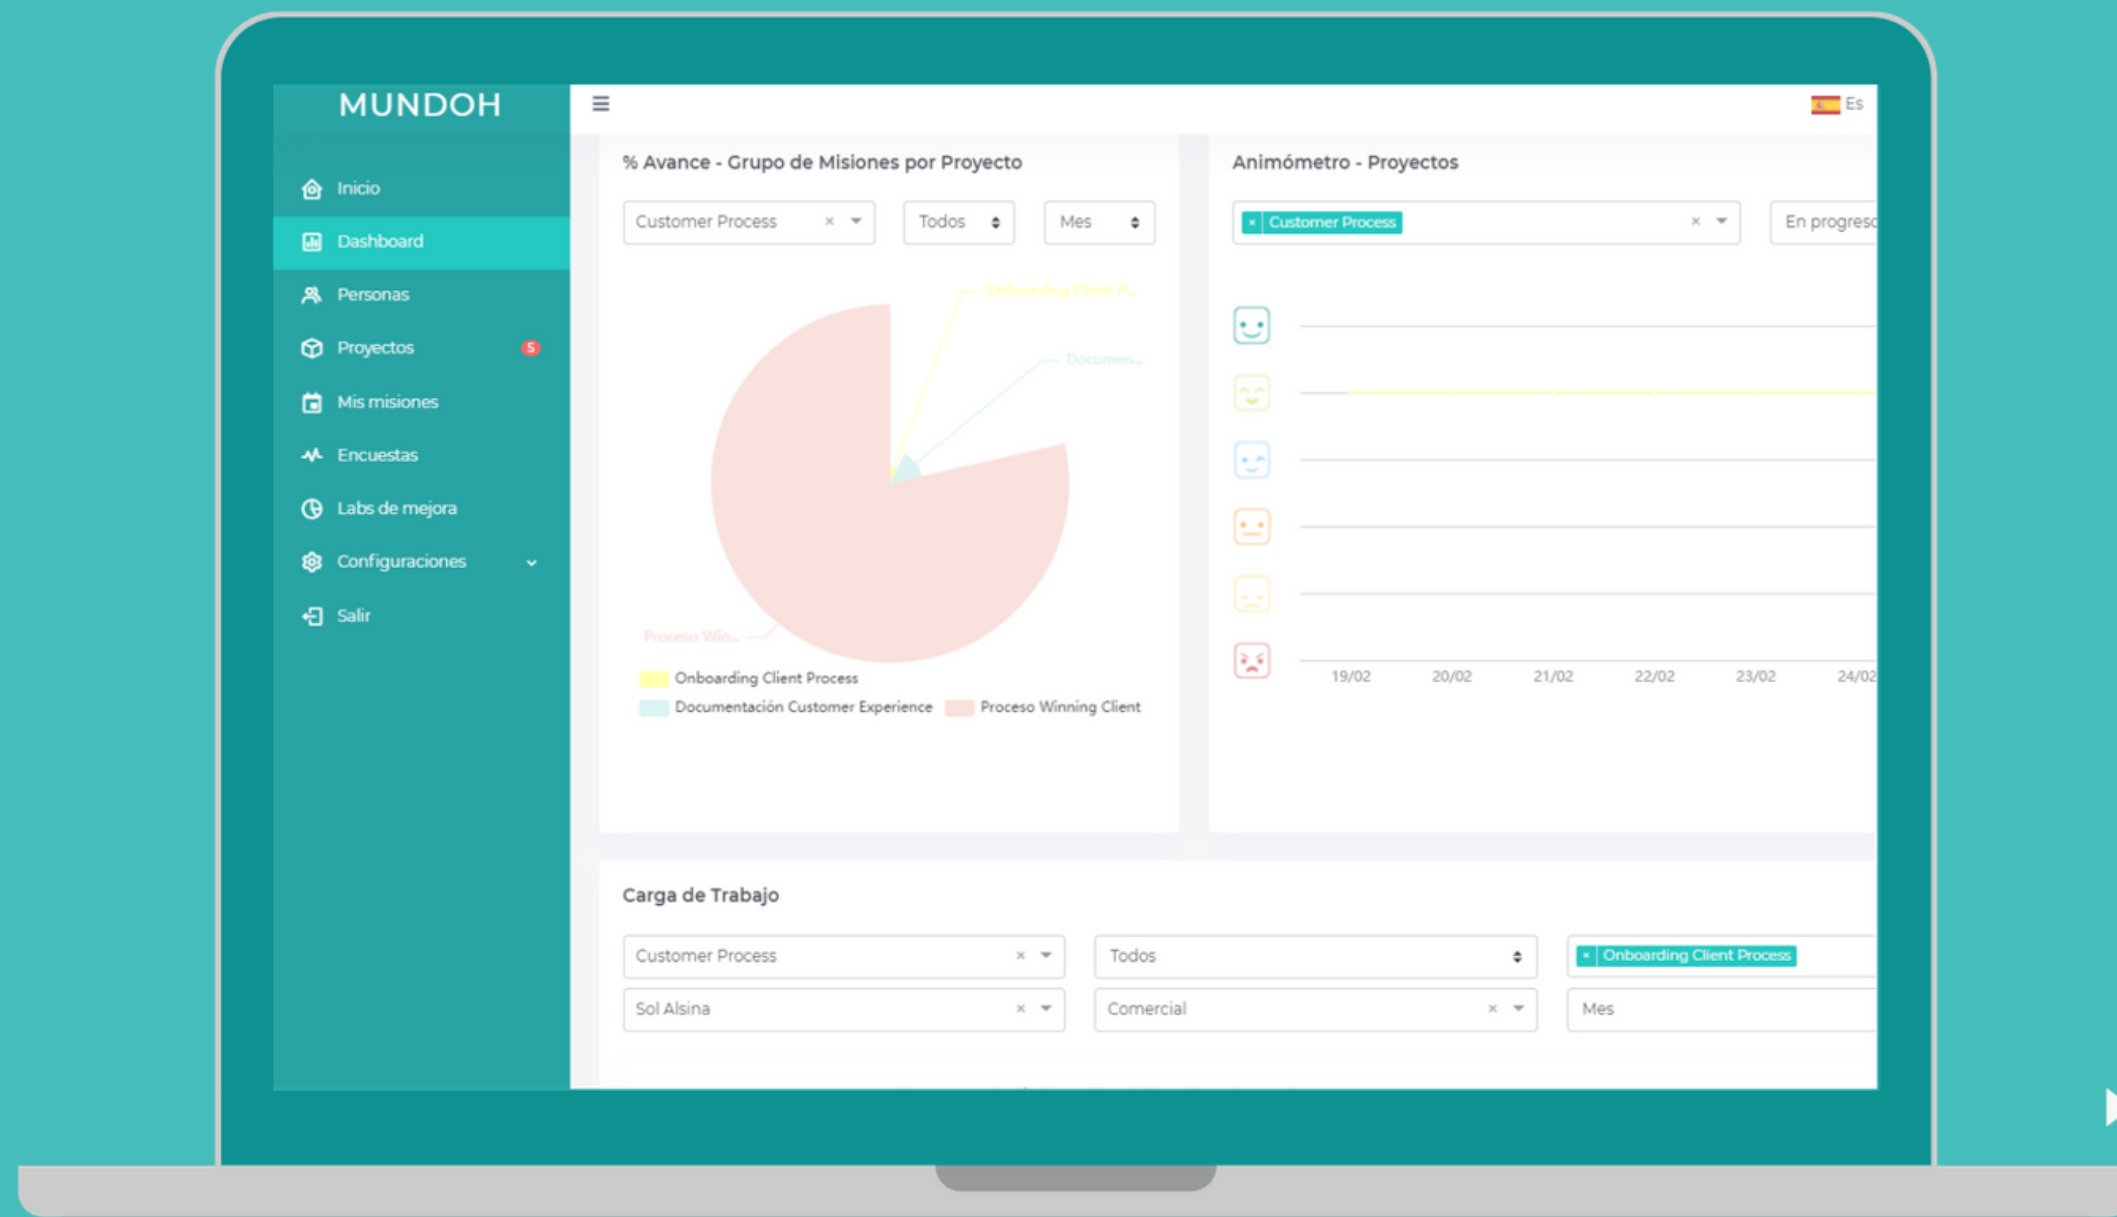

## MANAGE PERFORMANCE AND WORKLOAD

Management of workflows and performance. Plan actions and **see in real time who can take more work and who can not to avoid stress.**

## IMPROVE REMOTE COLLAB

You can share your dashboards with people outside your company such as customers and providers to collaborate in real time.

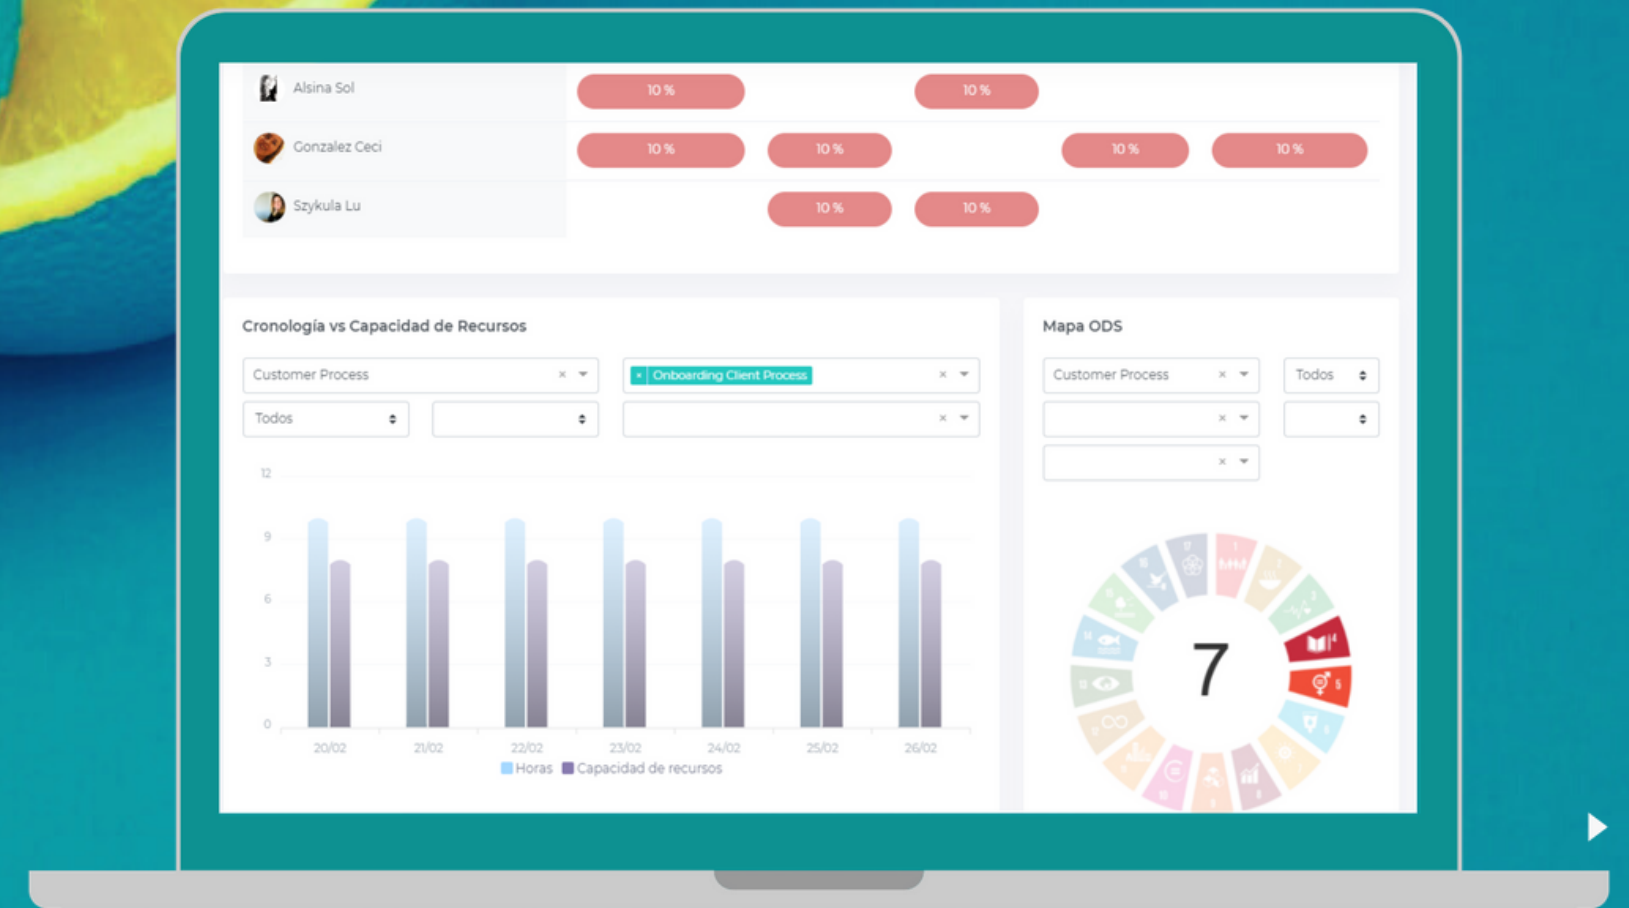

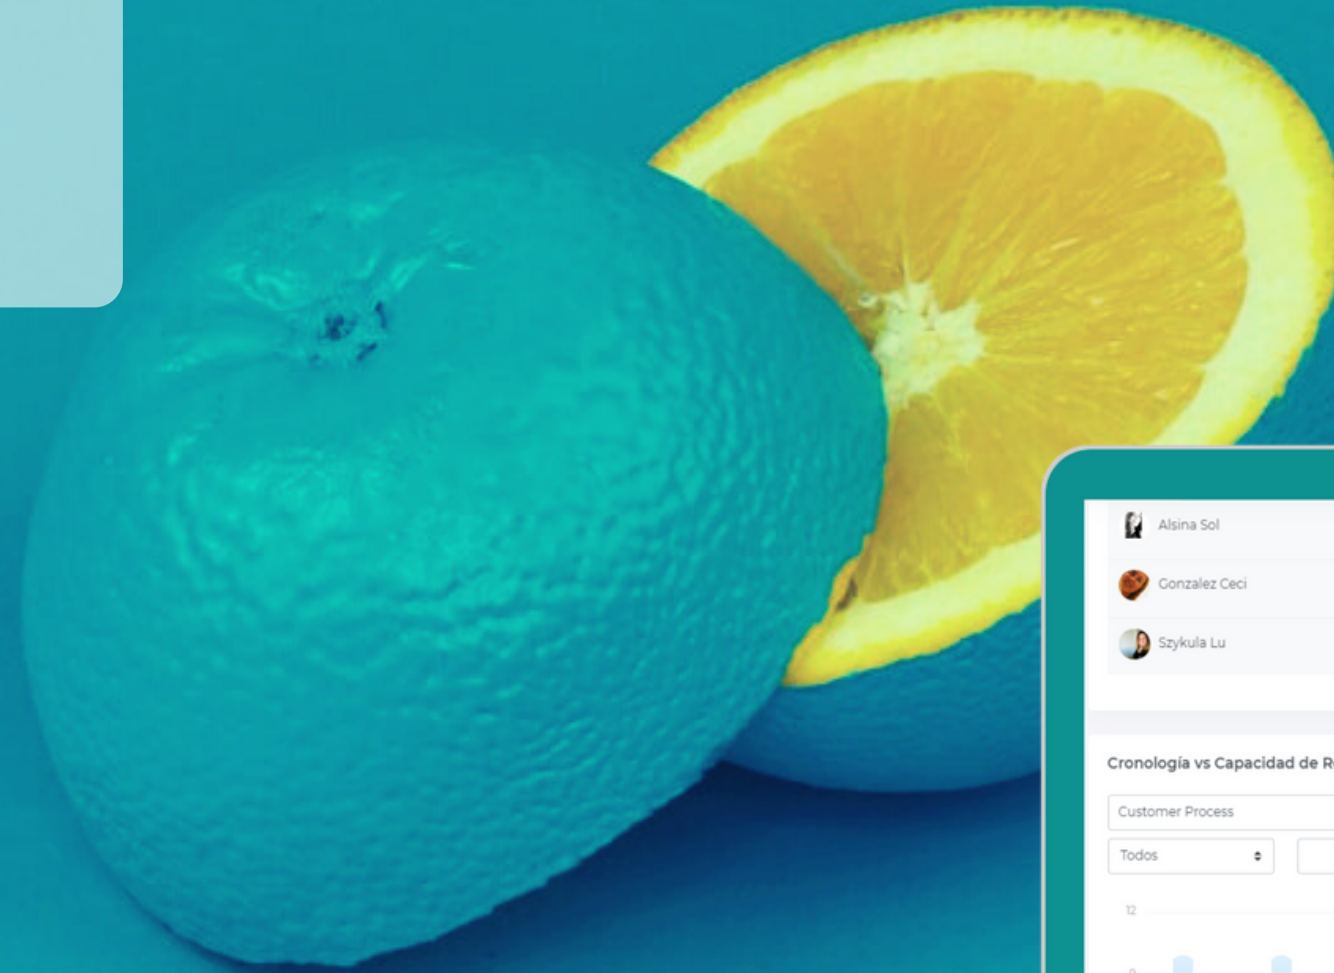

## IMRPOVE SATISFACTION

**Activate surveys and visualize what your clients or your team need, act in real time and improve productivity.**

 **MANAGE SDG**

Connect actions and project missions to UN Sustainable Development Goals.

## OUR PURPOSE

**Bring Well-being, Productivity  
and Inspire leaders to be more  
People and Planet Oriented.**

## A ZEBRA TECH PROVIDER

If you choose Mundoh as a provider you are helping to reduce the gender gap in technology. Every 7 clients, we will hire a single mom or adolescence programmer and buy sustainable Toys for little Girls with Cancer.

## WE ARE

The extention of your team in Well-Being and Project  
Management

Your Productivity Strategic Partner

Your HR Ambient Data Detective

Your Chief Climate guidance Leader

Your Workplace Enviroment Architech

Humans that want to leave positive mark in the world.

If you could visualize the emotions of your teams and clients all the time, motivate them, and increase productivity, would you do it?
