SAS

Student Agency Services.

Leading Internship, volunteering, Community Outreach service learning, Pre-med, Public Health and Nursing program to the Dominican Republic.

PROGRAM INFORMATION.

Student Agency Services or SAS, currently operating as Student Services, was officially funded and incorporated in the Dominican Republic in 2000 as a student & researcher service agency for students and professionals. Its function is to promote, organize, provide, and take charge of logistics, student training, development programs, and academic policies, and to provide and coordinate with professors to provide materials that will be used in the teaching process. Incorporated in the D.R. as RNC No. 123-014996; registered in the USA under IRS section 501 (c) (3) FID No. 82-5266169.

The reason for you to visit our links below and inquire further about our programs is simple--we have more than 20 years of experience in the world of student and researcher services, exchange programs of all kinds, and educational tours all over the island, with accommodations available in resorts, hotels of all levels, remote inns and camping sites.

Our programs include, but are not limited to student exchange programs, Premed, Nursing, Public Health, Community Outreach service learning, Summer leadership, Community ESL, Spanish programs, sports programs, historical-cultural-ecological tours, adventure tours, summer and spring break programs, volunteer programs of all kinds, Latin American and Caribbean Studies classes/presentations in English and/or Spanish, internships and other special opportunities for students and/or other interested persons in a wide variety of fields.

Day 8.- End of the Program
Breakfast & Day Briefing
Airport transfer.

Depart Dominican Republic for home, life
changing program.

This SAS/Guanin program will serve as classes for the students' "curriculum of life" as well as for their professional lives. Exchange activities are very useful for helping students and other participants to discover for themselves the reality of the Dominican people and their culture. The participants will have every opportunity of sharing in and living the "Dominican reality pre-clinical observation, culture and medicine. We are leader of the market, we will make your wish come true, give us your idea and we will do it at the height of your perspective.
