Highly recommend this Spanish school in El Salvador! Great variety of tailored lessons and teaching methods, as well as flexibility in scheduling. I always look forward to my classes with Silvia and can really notice improvement in conversation, and verbal comprehension especially. Worth the investment if you're serious about making progress.

I have loved my experience taking Spanish classes online! I communicate with Spanish speakers daily at my job, and personalized instruction from native speakers has greatly improved my ability to communicate and given me more confidence in my speaking skills. I also had the opportunity to spend two weeks in El Salvador and I absolutely loved my time there. It is a beautiful country with so much to offer!

Lessons are tailor-made for my interests and goals in speaking Spanish - no generic curriculum or formats. Over time, I have learned to speak more naturally, as well as to express myself in writing. Native-speaking teachers and flexible scheduling make learning Spanish a high point of my day. If you're looking to learn/improve/brush up on your Spanish, try Torogoz!

I look forward to my weekly Spanish lesson with Torogoz Language Academy. It's an opportunity for me to continue my journey in becoming conversational in Spanish, while also having some fun. I enjoy the feeling of grasping incremental knowledge and truly understanding topics as I progress. My instructor always has new ideas and approaches to guide me along this path. I only wish I'd started sooner!
