

PERSONALIZED MAGNETIC BIOPOSTURE BRACELETS

bioposture

The Magnetic Bioposture bracelets bring a new design with a more anatomical and comfortable format, better fitting the wrist. Besides that, they use the highest quality hypoallergenic material with a high mechanical resistance.

They have the most advanced therapeutics for treatment and prevention, such as: Magnetics, Long Infrared and Near Infrared.

MAGNETICS

It has 2 neodymium magnets with 1500 gauss each, similar to the contact of our body with the Earth, helping discharge energies.

LONG INFRARED

It contains a high frequency insert that emits waves similar to the solar spectrum that is beneficial to the body, bringing numerous benefits for health.

NEAR INFRARED (EVI DIAMOND)

The EVI Diamond is a ceramic insert based on nano-crystals with particles of precious stones that emit infrared energy near (480 to 520 nanometers) with vibrational effects in the molecules of water, potentializing the infrared process and accelerating the elimination of acids and fats from the body.

**BENEFITS PROVIDED
BY THE TECHNOLOGY USED
IN THE BIOPOSTURE BRACELETS:**

- Has anti-inflammatory effects.

**PERSONALIZED
BRACELETS**

Personalize the
bracelets with
your BRAND.

ATTENTION

The Bioposture bracelet can be used daily, however, it does not substitute conventional medical treatments or medication. Do not use these products in water, in a pool, shower or others. Not indicated for users of implants that use batteries, such as pacemakers, cochlear implants and others, since the magnets can interfere with these implants. The technology used in the bracelet has an indefinite validity, not needing to recharge.
