RACCORD FILMS

WE INVITE YOU TO GET TO KNOW US

Production company based in Montevideo, Uruguay, created in 2014 with the aim of producing fiction projects, especially feature films and new media contents.

Founded by **Lucía Moreira**, Uruguayan producer with extensive experience in film and **Erika Elizalde**, screenwriter and Uruguayan producer based in Madrid, decided to join expertises to create audiovisual content from their Latin-American background to export to the world.

We want to create universal stories that excite and transmit a new and universal point of view without mattering where you are from.

Betting on projects of great artistic potential and creating collaborations with other Latin America countries, we work mainly aiming to an unusual type of production for this region: considering the author and exploring new ways of connecting with the public.
