Vegetable Cleaner

Removes Insecticides, Pesticides & Chemicals from Vegetables, Fruits and Meat.

Wall-mounted

Counter-top

Vegetable Cleaner

Vegetables and fruits are often laced with insecticides, pesticides and other harmful chemicals that seep into our bodies. Merely rinsing vegetables with water does not remove the harmful substances which can be hazardous to your health.

How it works

KENT Vegetable Cleaner produces Ozone gas which has the exceptional power to kill bacteria, viruses, fungi and other pathogens from the surface of vegetables, fruits and raw meat.

How to use: 5 easy steps

①

Fill up a big bowl with water and put vegetables and fruits in it.

②

Put the KENT Vegetable Cleaner nozzle in the bowl.

③

Switch on and select the 15/30 mins mode as per the quantity.

④

Empty the bowl and rinse the vegetables and fruits with water.

⑤

Clean fruits and vegetables are ready for consumption.
