WHAT WE DO

END TO END SOFTWARE DEVELOPMENT

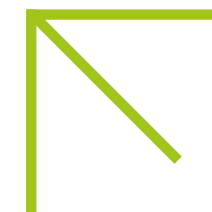

We guide you in the construction of software, transforming your idea into a viable product. We respect deadlines and budgets to generate greater return value for your investment.

WHAT WE DO

WEB & MOBILE DEVELOPMENT

We create fast, simple and elegant user interfaces capable of running on multiple browsers, smartphones and tablets. We develop your mobile apps for Android and iOS.

“

—

"Undoubtedly, Fx2 has been the fundamental support to implement and make our projects viable. The creativity, capacity and experience of their team have been crucial. Fx2 works with us with great seriousness, technical solvency and commitment in each of the stages of product development"

”

WHAT WE DO

SOFTWARE MAINTENANCE

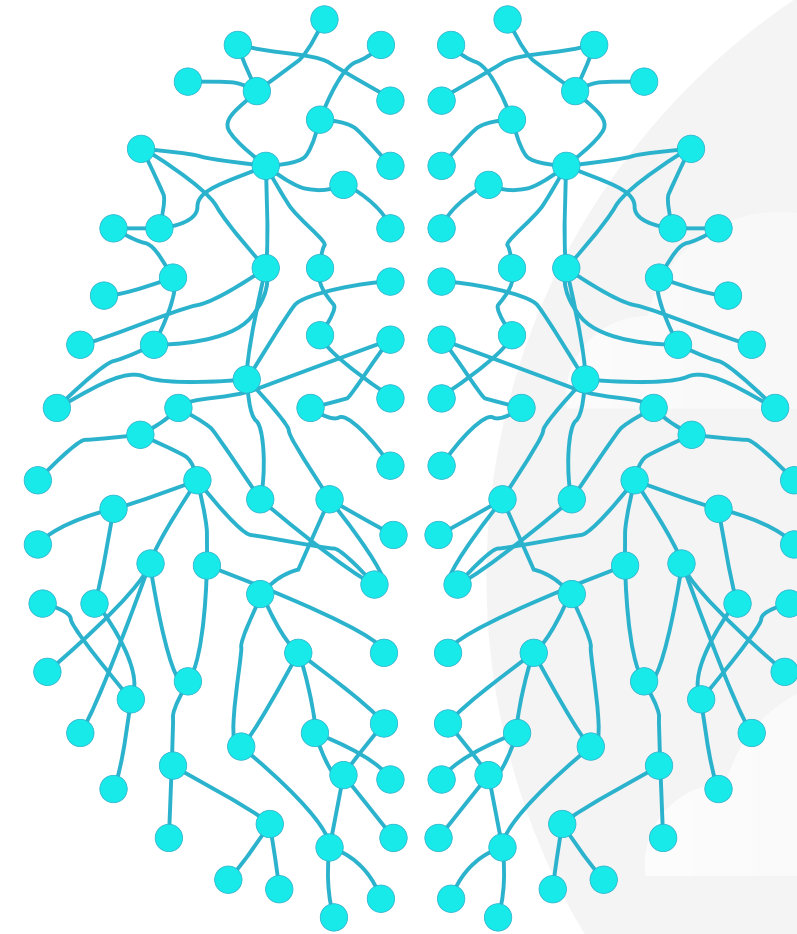

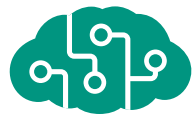

We provide assistance and support, at the same time that we make corrections in the software of our customers, developed by us or third parties. We plan and prioritize functionalities through Evolutionary Maintenance plans.

WHAT WE DO

CLOUD SERVICES

We help our clients to define a path and make appropriate, realistic and safe decisions in the process of selection and adoption of cloud technologies or solutions, through a specialized team.

WHAT WE DO

DIGITAL TRANSFORMATION

We work to digitize your business processes. We optimize, design and implement with effective tools and solutions, so you can monitor and measure the performance of your organization.
