EDUCATION ABROAD: FACULTY

Short-term faculty-led programs are a growing alternative for many institutions interested in expanding education abroad access for their students.

At Toucan Education Programs (TEP), we recognize the pivotal role Faculty play in promoting global education on campus. As such, we are excited to support faculty efforts to incorporate global learning into their curriculum.

We have a track record of connecting faculty and their students to the people and cultures of Belize through safe, ethical, and meaningful immersive learning experiences. Our team supports faculty every step-of-the-way starting with program design through to re-entry.

TAILORED FACULTY-LED PROGRAM THEMES

TEP designs and implements faculty-led programs in five broad thematic areas that easily fits into a variety of disciplines.

- Community Development
- Conservation
- Education
- Global Health
- Social Science
